SEWER SERVICE AGREEMENT

This agreement made by and between SKAGIT COUNTY SEWER DISTRICT NO. 2,
Hereafter "District," and Mike Perry, hereafter "Property Owner(s)"

WITNESSETH

Recitals:

1. District is a municipal corporation in Skagit County, Washington operating a sewer system within said county with a sewer line near the property described below.

2. Property Owner(s) are the owners of said real property and desires sewer service from the District.

9907130071

BK2019P60006

3. The subject real property is situated in Skagit County, Washington, and is described as follows:

LEGAL:

Beginning at the intersection of the north line of Tract H, "BIG LAKE WATERFRONT TRACTS", according to the plat recorded in Volume 4 of Plats at Page 12, records of Skagit County, Washington, with a line that is 250-feet westerly of and parallel with the westerly right-of-way line of West Big Lake Boulevard; thence westerly and southerly along the north and west lines of said Tract H to the southwest corner thereof; thence N 50°45'30" E along the southerly line of said Tract H, a distance of 404.42 feet; thence N 32°25'05" W, a distance of 147.45 feet; thence N 62°30'45" E to a line that is 250 feet westerly of and parallel; with the westerly right-of-way line of West Big Lake Boulevard; thence northwesterly along said parallel line to the point of beginning.

Contract Terms:

The parties contract, covenant and agree that:

1. At such time as structures with plumbing fixtures are constructed on the subject property, Property Owner(s) will, at their own expense, construct, install and connect a gravity sewer system to the District's sewer system in accordance with the District's rules and regulations.
2. Connection to the District's 8" sewer line shall be made at the point designated by the District, and any roads disturbed during such installation and connection shall be restored by the Property Owner(s) in accordance with County requirements and will save the District harmless from all claims of any nature whatsoever arising out of the construction thereof or connection to the District's sewer facilities.
3. The plumbing system of the residence(s) or other structure(s) now or hereafter to be located upon the Property Owner(s) real property shall, without cost to the District, be connected with said sewer line at a place designated by the District, by suitable side sewer connection which shall be inspected by the District's designate prior to use and shall be used and maintained in accordance with the District's standards, rules and regulation as may be amended from time to time.
4. The cost of all construction and installation of Property Owner's sewer line, together with the obtaining of all franchises, easements and permits of every nature required for the construction and/or maintenance of said facilities shall be procured and installed by and at the expense of the Property Owner(s), and all such applicable franchises, easements, and permits, as required, shall be delivered to the District prior to construction and installation of Property Owner's sewer line.
5. Upon completion of the construction and payment of the connection charge in the manner set forth herein, the District shall furnish sanitary sewer service to the real property at the same rates and subject to the same rules and conditions of service, including interest and penalties on delinquent accounts, as now or hereafter shall apply to the District's customers.

6. Property Owner(s) promise and agree that this agreement is a covenant running with the land binding upon their heirs, successors and assigns.

7. All of the above-described real property upon which improvements requiring sewer service have been or shall be placed shall stand as security for all sums which may become due or owing to the District by the owners or occupants, including but not limited to the following:

- a) Connection charge
- b) Sewer service charges, and
- c) Charges for maintenance and repairs furnished;

and the District shall have a lien thereon, subject only to the lien for general taxes, for all such sums, including penalties and interest, as provided for in District resolutions.

8. After sixty (60) days delinquency the District may certify the delinquency to the Skagit County Treasurer and a lien claim may be filed, at its option, with the Skagit County Auditor. At any time thereafter, the District may foreclose such lien and include in such suit, without filing additional notice, any charges or penalties accruing after the date of the filing of the original lien and until the entry of judgment, and the Court, in its judgment, may allow for reasonable cost of searching title or obtaining a report as to necessary parties defendant, other necessary and reasonable costs and a reasonable attorney's fee. The action may be in rem or in personam or both. The delinquent account shall accrue interest at the maximum rate allowed by Washington State law.

9. Property Owner(s) agree to pay to the District a connection charge, which shall be paid in full to the District within thirty (30) days of notice from the District that such sums are due and payable. The connection charge is the sum of the general and local facilities charges. The general facilities charge is currently \$3,639.00 for one residential customer equivalent. The local facilities charge is waived for standard sewer developer extensions, as would be required for service to the subject property. Connections to the sewer system by future structures located outside of this area shall be subject to additional connection charges. Connection charges shall be based on the general facilities charge in effect at the time of connection.

10. In the event the District shall form any Utility Local Improvement District in which special assessments shall be levied to pay all or a portion of the cost of any collector trunk or interceptor sewer or sewage treatment and disposal facilities which will serve the subject property, and if such property shall be included within or outside the boundaries of that district, the subject property shall be subject to a special assessment applied in accordance with the assessment formula utilized. Property Owner(s) and their assigns and successors in interest agree not to object to the formation of the Utility Local Improvement District and may not object to the amount of the assessment on the ground that such property is already receiving sewer service pursuant to this contract, but may object for other reasons as provided by law. If requested by the District, Owners agree to execute a petition to form such a district.

11. Property Owner(s) shall not install, construct, or use on-site sewage or waste disposal systems for sewer service to the subject property.

EXECUTED IN DUPLICATE this 2nd day of July, 1999.
