SEAWATER INTRUSION DRINKING WATER STATUS REPORT

I, the undersigned property owner, in making an application for a building permit involving a single-family residence, acknowledge that this notice is being signed, notarized and recorded in compliance with Skagit County (S.C.) Resolution #15570 signed December 12, 1994. This parcel is located in a **Seawater Intrusion Area**. The owners of this parcel must follow Interim Resolution #15570 or its successor.

1. I agree to record this notice with the Skagit County Auditor's Office for the purpose of it being made a part of the record of title.
2. I understand that this notice will appear on any title search or record search, and we have no objection nor will we make claims against Skagit County as a consequence of this recording.
3. The drinking water source for this single-family residence is a 96-foot well drilled September 14, 1999. The well is located more than 1/2 mile from the coastline. According to the owners, the well was drilled as far inland as possible. The owners showed documentation that a 5 gpm orifice restrictor and a wellhead source meter were installed.
4. The September 22, 1999 well sample measured 34.8 ppm chlorides and 15 ppm sodium. Home water softeners that add additional sodium to the water are not recommended for this water. Resolution #15570 requires the property owner to:
 - a. utilize a maximum pumping rate of 5 gallons per minute or less,
 - b. record the static water levels quarterly the first year and annually in September thereafter,
 - c. record the chloride test results, prior to treatment if any, in September annually,
 - d. record the well head meter readings monthly for the first year of residence and annually thereafter
 - e. all reasonable water conservation measures shall be utilized.
 These records will be submitted to the Skagit County Health Department. This data will be used for educational purposes only and not for enforcement action.
5. Specific drinking water system information for this lot may be on file at the Skagit County Department of Health or Permit Center.
