From: Rick Rogers, Concrete Town Planner

RE: Lot Boundary Adjustments for Parcel Numbers P70799, P70800,
P70801

Mr. Sjoboen,

I have reviewed your proposed lot boundary adjustments of lots 17, 18, and 19 of Everett's First Addition to Concrete, Plat Number 4060 (P70799, P70800, P70801). In addition, I have also spoken with people at the assessor's office to clarify the necessary process for effecting these proposed adjustments.

The process to make lot boundary adjustments basically is to:

1. Apply to the Town of Concrete for approval of your proposal.
2. Go to a Land Title company or Surveyor of your choice to write a legal description of your proposal.
3. Take the legal descriptions and the Town of Concrete's approval to the Skagit County Treasurer's office to transfer ownerships of the adjusted lots.

Most competent Surveyor or Land Title companies are well versed in writing legal descriptions and making lot boundary adjustments.

The Town of Concrete has no objections to the lot boundary adjustments that you and I have discussed on May 18, 2001. These lot boundary adjustments are outlined on the conceptual map attached to this letter. In our municipal codes, private access easements across privately-owned lots do not seem to be any of the Town's concern, and may be recorded to suit your convenience.

If, in the process of working with a Land Title or Surveyor company, you decide to redraw the lot boundaries in such a way that is substantially different from what is outlined in the attached Conceptual Layout map you will need to come back to the Town for approval of the modifications. Any modifications will need to comply with the provisions of Section 10.15.050, Residential Area and Dimensional Regulations of the Concrete Zoning Codes. This section of the zoning codes is also attached to this letter for your convenience.

Please let me or the other staff know if there are any questions you may have or if there is anything else we can help you with.

Sincerely,

Mickey Zitkovich, Clerk-Treasurer
