Deputy

Parcel Number: P 32593, P 61860

**EMERGENCY ACCESS EASEMENT**

Grantor, Jay Lund, a single man, owner of property described in Exhibit A *982* attached hereto, hereinafter the "burdened premises," for ~~ten dollars and other good and~~ *no* consideration, in hand paid, grants, warrants and conveys to John M. Alexander, and Ella Y. Alexander, husband and wife, owners of Lot 57, "ANACO BEACH, SKAGIT COUNTY, WASHINGTON," situated in the County of Skagit, State of Washington, hereinafter the "benefited premises," a perpetual emergency access easement within the easement corridor described in Exhibit A, which shall run with the land and be binding upon the grantor, grantee, and their respective successors and assigns. It is recognized that other agreements regarding the easement may be made with Charles Petersen, owner of Tract 2, being a portion of Lot 58, "ANACO BEACH, SKAGIT COUNTY", as per plat recorded in Volume 5 of Plats, page 4, records of Skagit County, Washington, situated in the County of Skagit, State of Washington. These other agreements are independent of the agreement between Jay Lund and Ella and John Alexander. The foregoing easement shall be subject to the following terms and conditions:

1. Use. Easement corridor may only be used by grantees for fire, law enforcement and/or medical emergency personnel. Fire, law enforcement and/or medical emergency personnel shall have the right to use the easement as an alternate access to the benefited premises.

Both the Grantor and the Grantees undertake to make available access to the easement for emergency use by fire, law enforcement and/or medical units as needed. Skagit County Road Standards, version 4.0, November 5, 1999, require a minimum 12-foot driving surface. Construction of this emergency access and utility easement shall be done in accordance with Skagit County Road Standard 3.08 and orders of the Fire Marshal varying that standard. A road no larger than 12-feet in width is authorized by this easement

2. Barrier. A locked barrier will be installed at the west end of the Lund property, Division 4 of The Pointe, which shares a common boundary with Lots 57 and 58, ANACO BEACH above described. Keys shall be made available at the cost of the benefited party to fire, law enforcement and medical units with jurisdiction over the benefited premises. Access may be provided by the benefited parties to utility service providers, including without limitation, water, electric power, telephone, cable, natural gas and other providers who now or in the future plan to carry out utility extensions to serve the benefited premises or the Lund property, Division 4 of The Pointe

3. Maintenance. After construction, all maintenance of the road within the easement corridor and barrier shall be the joint responsibility of the owners of the benefited premises (i.e. Alexander and Petersen), and their respective successors and assigns, except to the extent that development of Division 4 of The Pointe, causes any change in the original installation to accommodate the needs of the benefited premises. The owners of the benefited premises, their successors and assigns, however, shall be responsible for cutting grass and maintaining the road within the easement corridor in a suitable state for its intended purposes. When utility and access installation work has been done and the gravel surface has satisfied the requirements of Skagit County Road Standards as defined above, Grantees shall place a thin layer of soil on the road surface, hydroseed it with the seed mix used on San Juan Boulevard and ensure the road becomes and remains grass covered.

4. Initial Cost. All costs associated with the construction of the emergency access road easement shall be shared equally between Ella and John Alexander and any other Grantees. The costs are exclusive of any costs that other Grantees may incur due to the placements of utilities.

5. View Protection. As a reciprocal view easement for the benefit of Division 4 of The Pointe, Jay Lund, and his successors in interest, Ella and John Alexander, for themselves and for their successors and assigns, shall cooperate with the selective pruning and tree removal in order to maintain or provide ocean views over and through the benefited premises, defined above, for the benefit of Division 4 of The Pointe. Ella and John Alexander for themselves and for their successors and assigns, agree to protect native growth on the benefited premises and agree to forego any forest management practice which would result in clear-cutting or severely damaging the native vegetation of the benefited premises.

Any labor done by the benefited premise owner to prune or remove trees for ocean view maintenance shall be done at no charge to Lund or his successors in Division 4 of The Pointe, provided, that forestry professionals or arborists engaged by Jay Lund or his successors to direct or carry out selective pruning and occasional tree removal for view maintenance will be paid by Jay Lund or the successors of Jay Lund owning in Division 4 of The Pointe. Any access for this purpose shall be by mutual consent, in advance and in person, or by 30 days mailed notice of intent to exercise the right to selectively prune or on rare occasions to remove an individual tree, mutual consent be preferable when at all possible. This right to preserve and enhance views for the benefit of Division 4 of The Pointe over the otherwise defined benefited premises (i.e., Alexander's and Petersen's) shall run with the lands of all and be enforceable in law and equity as a view easement with the restrictive and permissive covenants defined herein binding the heirs, successors and assignees of the otherwise defined benefited premises.

6. Liability. Each party receiving benefits from the above described easement and its reciprocal view easement, shall exercise its rights prudently with due regard for the impact on adjoining property. The easement holder agrees to indemnify and hold harmless the burdened premises owner from damages by maintaining owner's insurance coverage and requiring contractors to insure against all hazards associated with their work. Both burdened and benefited premises owners agree to make their best efforts to assure the intended emergency access for fire, law enforcement and medical purposes, but the failure of service due to lost keys, malfunctioning of a barrier due to unintentional acts which may amount to negligence, shall not give rise to liability between the Grantor and the Grantees or vice versa.

The grant of the foregoing emergency access and its reciprocal view easement are entered into without any commitment to expand the use of the emergency access, either in its size or purpose. The parties agree to discourage public use of the easement premises in any manner that would interfere with the peaceful enjoyment of their respective property and reserved rights

In the event any party's exercise of their rights herein granted results in a lien on another's property (for example a mechanic's or material man's lien) the affected property owner shall have a lien on the property of the party causing the resulting lien equal to the amount of the resulting lien, together with costs, including attorneys fees, for having to deal with the resulting lien. The lien in favor of the affected property owner shall be enforceable as provided in paragraph 3, above.

In any action to enforce the rights and or obligations of the parties bound hereby, the substantial prevailing party shall be entitled to his or her attorney fees and costs.

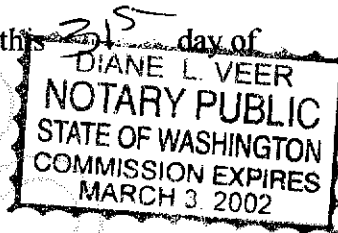

STATE OF WASHINGTON )

County of Skagit ) ss

On this 31 day of August, 2001, before me, the undersigned, personally appeared JAY LUND, to me known to be the individual described ill and who executed the within and foregoing instrument, and acknowledged to me that he signed the same as his free and voluntary act and deed for the uses and purposes therein mentioned.

GIVEN UNDER MY HAND AND OFFICIAL SEAL this 25 day of August, 2001.
