RECORDED: July 10, 2002
AUDITOR'S NO.: 200207100179
REGARDING:

This parcel lies within an area or within 500 feet of an area designated as a natural resource land (agricultural, forest or mineral resource land of long-term commercial significance) by Skagit County. A variety of Natural Resource Land commercial activities occur or may occur in the area that may not be compatible with non-resource uses and may be inconvenient or cause discomfort to area residents. This may arise from the use of chemicals; or from spraying, pruning, harvesting or mineral extraction with associated activities, which occasionally generates traffic, dust, smoke, noise, and odor. Skagit County has established natural resource management operations as a priority use on designated Natural Resource Lands, and area residents should be prepared to accept such incompatibilities, inconveniences or discomfort from normal necessary Natural Resource Land operations when performed in compliance with Best Management Practices and local, State, and Federal law. In the case of mineral lands, application might be made for mining-related activities including extraction, washing, crushing, stockpiling, blasting, transporting and recycling of minerals. If you are adjacent to designated NR Lands, you will have setback requirements from designated NRL lands consistent with SC 14.16.810.

This parcel is located in a "Special Flood Hazard Area" as identified on the Flood Insurance Rate Map (FIRM) and as adopted by Skagit County. This parcel is subject to periodic flooding and may also be prone to other hazards caused by flooding. The Flood Disaster Protection Act of 1973 and the National Flood Insurance Reform Act of 1994 mandate the purchase of flood insurance as a condition of Federal or Federally related financial assistance for acquisition and/or construction of building in Special Flood Hazard Areas. Skagit County participates in the National Flood Insurance Program (NFIP) thereby making all properties eligible for flood insurance.

All new construction or substantial improvements to structures are subject to Skagit county Building Codes per SCC Title 15 and Skagit County Flood Damage Prevention Ordinance Title 14. Any building determined to be in violation of state or local floodplain management regulations or ordinances cannot be covered by flood insurance nor can an existing policy be renewed where violations occur. The Skagit County Planning and Permit Center maintains information related to state and local regulations, flood protection measures, flood hazard zones and in some cases potential flood depths.

E. EASEMENT PROVISIONS SHOWN ON SHORT PLAT, AS FOLLOWS:

A non-exclusive easement is hereby reserved for and granted to, Puget Sound Energy, the GTE, systems of the Northwest, the Cascade Natural Gas Corporation, the Public Utility District No. 1 of Skagit County, and TCI Cablevision of Washington, Inc., and their respective successors or assigns, under and upon the private road located in this Short Plat and the exterior seven (7) feet parallel and adjacent to the private road frontage of all lots in which to install, lay, construct, renew, operate, and maintain underground conduits, cables, and wires with necessary facilities and other equipment for the purpose of serving the subdivision and other property with electric, telephone, gas, water, and television service together with the right to enter upon the lots at all times for the purposes stated.

A non-exclusive ingress, egress and utilities easement is hereby reserved for and granted to Lots 1 through 3 as shown hereon. Maintenance responsibilities shall be as set forth in declaration and agreement recorded under Auditor's File No. 200112100230.

A well protection zone easement is hereby reserved for and granted to Lot 4 around the existing well on Lot 4 as shown hereon.

EXCEPTIONS CONTINUED:

E. (Continued):

The proposed well locations shown hereon are not abased on actual constructed wells. The well protection zones may require revision if the well cannot be located as proposed. If moved, the 100 foot radius well protection zone shall not extend beyond the subdivision exterior boundaries without written consent and recorded well protection covenant from the affected property owner(s). After installation of any water well to serve lots within this subdivision, all owner(s), and successors agree to maintain 100 foot well protection zones in compliance with current state and local well siting and construction regulations, which, at a minimum, prevent installation of drainfields within the well protection zone. The revision of the well protection zone location is a private matter between the affected lot owners and does not require a plat alteration.

Future wells for Lots 1 and 2 shall have a 5 gal./min. limiting flow valve installed. Verification must be provided to Skagit County Planning and Permit Center that the 5 gal./min. limiting flow valve has been installed on new wells as they are drilled.

For all 100' radius well protection zones depicted hereon, easements are hereby granted that encompass all well protection zones represented on this map to serve the prospective wells and well owners.

F. CONDITIONS SHOWN ON SHORT PLAT, AS FOLLOWS:

SEWAGE DISPOSAL: The method of sewage disposal shall be by individual septic drainfield system. Lots 1 through 4, of this Short Plat are vacant to date. The required soil logs for all lots have been prepared by David Mitchell of Northwest Septic. For Curt Tronsdal, an have been submitted to and remain on file with the Skagit County Permit Center. (Refer also to Note 3 of Restrictions).

WATER SUPPLY: Water of sufficient quantity and/or quality for Lot 4 is currently being provided by an existing well on Lot 4, as shown hereon.

Water for Lots 1 through 3, will be supplied from individual water systems. Contact the Skagit County Planning & Permit Center to determine if additional water quality or quantity testing will be required for building permit approvals. Skagit County requires a 100 foot radius well protection zone for new individual water systems. The 100' radius well protection zone must be located entirely on the proposed lot owned in fee simple, or the owner must have the right to exercise complete sanitary control of the land through other legal provisions, such as recorded covenants or easements. Present and future owners of lots with an existing well shall preserve a 100 foot radius well protection zone for existing well improvement or replacement.
