J. TITLE NOTIFICATION, AND THE TERMS AND CONDITIONS THEREOF

Between: Skagit County
And: H & H Investment Properties LL
Recorded: April 21, 2003
Auditor's File No.: 200304210243
Regarding:

This parcel lies within an area or within 500 feet of land designated as natural resource land (agricultural, forest or mineral resource land of long-term commercial significance) by Skagit County. A variety of natural resource land commercial activities occur or may occur in the area that may not be compatible with non-resource uses and may be inconvenient or cause discomfort to area residents. This may arise from the use of chemicals; or from spraying, pruning, harvesting or extraction with associated activities, which occasionally generates traffic, dust, smoke, noise, and odor. Skagit County has established natural resource management operations as a priority use on designated natural resource lands, and area residents should be prepared to accept such incompatibilities, inconveniences or discomfort from normal, necessary natural resource lands operation when performed in compliance with best management practices and local, state and federal law. In the case of mineral lands, application might be made for mining-related activities including extraction, washing, crushing, stockpiling, blasting, transporting and recycling of minerals. If you are adjacent to designated natural resource lands, you will have setback requirements from designated natural resource lands consistent with SCC 14.16.810.
