PLAT PLOO-0344 RECORDED UNDER AF#200108270154

The property owner of above-described property agrees to as follows:

- Property owner to comply with the requirements herein.
- Property owner to fill-in required information and have this document notarized by a valid Notary of Washington.
- This document to be recorded with the deed of the property at the Skagit County Auditor's office.
- A copy of this document is to be filed with the Skagit County Planning and Permit Center with the original retained by the property owner.

The Skagit County Health Department requires that a septic system maintenance contract be entered into for the purpose of monitoring the performance of the septic system to be installed at the above-mentioned property. This is a requirement for the approval of the septic design and operation of the septic system under a State of Washington Class A waiver relating to setback issues. A contract must be in force for the life of the system. A Skagit County certified septic maintenance provider of the property owner's choice must provide services. The service provider must inspect the system every six months and must issue a report of the service to the Skagit County Health Department and the property owner. This requirement is binding upon subsequent property owners and must be disclosed at property transfers. Discontinuance of the service places the system in non-compliance that will be reported to the Skagit County Health Department.
