RE: Lot of Record Certification PL05-0233
Parcels P30611 and 107248

Dear Ms. Ross:

The determination for a Lot of Record is based on a review of the conveyance documents submitted, including, but not necessarily limited to: the legal description contained in each conveyance document; assessing when parcels came together; when parcels were separated; and what County regulations, if any, were in effect at the time of conveyance of any specific legal description.

Review of the documents submitted has resulted in the following determination:

The current zoning of all parcels involved is Secondary Forestry with a minimum lot size of 20 acres. Due to each parcel being less than 20 acres in size, each one of the parcels involved is considered substandard to the zoning designation.

In 1979, by legal description, Parcels P30610, 30611 and 107248 were actually one total unit of property. In 1979, the first conveyance and separation of Parcel P30611, which at this time still included P107248, from P30610 was not in compliance with Skagit County Subdivision regulations. In 1995, the second separation and conveyance of Parcel P107248 from P30611 was again not in compliance with Skagit County Subdivision regulations. All of these conveyances were accomplished without benefit of a Short Subdivision. The second conveyance has compounded a situation that was already out of compliance with Skagit County regulations.

It should be noted that any buildings located on P107248 have been placed without benefit of review of a Building Permit Application, issuance of Building Permits or associated inspections. Enclosed please find a copy of a current Notice of Violation sent to Mr. Robert Tracy by this office. The Notice of Violation is in regard to placement of buildings without appropriate permits and review. The requirement for Building Permits for these buildings or removal of the buildings is being held in abeyance until there is a further determination by this office as to whether or not there is a remedy to the illegal conveyance of the noted parcels. The noted determination will have a direct bearing on required compliance with the Notice of Violation. However, continued construction of the building(s) shall not be allowed.

In addition, because Parcel P30611 was originally part of Parcel P30610, P30610 is also considered as a parcel not having been created in compliance with County regulations, due to the 1979 separation. Therefore, development permits cannot be issued for P30610.

This office will be in further contact upon determining a specific course of action. If you have any questions, please feel free to contact this office.

Enclosed please find all of the material submitted for review. In addition, the original of the Lot Certifications for all parcels involved have been forwarded to the Skagit County Auditor for recording. The originals of the Lot Certifications and invoices for recording will be forwarded upon receipt.

Sincerely,
