Skagit County Auditor

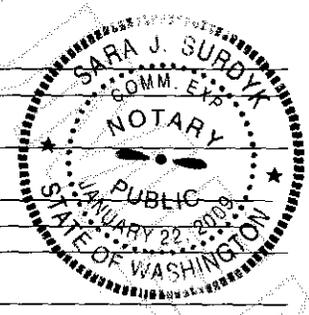

DRINKING WATER SYSTEM STATUS REPORT

I, the undersigned property owner, in making an application for a building permit involving a single-family residence acknowledges that this notice is being signed, notarized and recorded in compliance with Skagit County Code Section 12.48.270 in regards to a drinking water quantity parameter that will be exceeded during periods of low aquifers.

1. I agree to record this notice with the Skagit County Auditor's Office for the purpose of it being made a part of the record of title.
2. I understand that this notice will appear on any title search or record search, and we have no objection nor will we make claims against Skagit County as a consequence of this recording.
3. The drinking water well (TAG #AHE 049) for the residence on P18279 produced a yield of less than 400 gallons per day when tested on 09/31/2005 by Mr. Bill's Well Drilling & Pump Service. (Report filed in WA05-0060 at the Skagit County Planning and Development Services).
4. This status report shall serve to inform future buyers that this property will only be subdivided or issued a building permit for an additional inhabitable building, including an Accessory Dwelling Unit, subject to the following conditions: 1. Availability of Public Water to all potential lots or dwellings and whose source is off the property, or 2. All wells drilled and tested for quantity during the dry months (August or September) and yield a 24 hour stabilized pump test (6 hours or more) documenting 400 gallons per day or greater not counting casing storage.
5. The arsenic level tested on 5/17/2005 yielded a result of 0.48 ppm. The Federal Government has recommended lowering the maximum contaminant level to 10 ppm, therefore future owners may want to provide treatment on fixtures used for human consumption.
6. Specific drinking water system information for this parcel is on file at the Skagit County Planning and Development Services.

LEGAL DESCRIPTION 27-33-05

SITE ADDRESS: 27342 Lake Cavanaugh Road
