This is a requirement for the approval of the septic design and operation of the septic system under State of Washington code. A contract must be in force for the life of the system. A Skagit County certified septic maintenance provider of the property owner's choice must provide services. The service provider must inspect the system every six months and must issue a report of the service to the Skagit County Health Department and the property owner. This requirement is binding upon subsequent property owners and must be disclosed at property transfers. Discontinuance of the service places the system in non-compliance that will be reported to the Skagit County Health Department. The property owner (grantor) must provide right of entry for purposes of inspection, monitoring, maintenance, operation, and sampling.
