Beginning at a point on the east line of the above described Property, said point being westerly of an existing pole; thence in a Southwesterly direction to the South line of the above described Property and the terminus of this centerline description.

1. Purpose. Grantee shall have the right to construct, operate, maintain, repair, replace, improve, remove, enlarge, and use the easement area for one or more utility systems for purposes of transmission, distribution and sale of electricity. Such systems may include, but are not limited to:
