RE: Patricia Hulbert Trust

Dear Chad:

The determination for a Lot of Record is based on a review of the conveyance documents submitted, including, but not necessarily limited to: the legal description contained in each conveyance document; assessing when parcels came together; when parcels were separated; and what County regulations, if any, were in effect at the time of conveyance of any specific legal description.

This office has completed review of the Lot Certification Applications and based on information submitted the following determinations have been made:

Lot of Record Certification PL08-0082, Parcel P15746:

Lot Certification PL08-0082 is comprised of the legal description associated with Parcel P15746. The subject property is currently vacant; the current zoning is Agricultural-Natural Resource Land. This zoning designation has a minimum lot size of 40 acres, at approximately 15 acres this Lot of Record is considered substandard in size to the zoning designation.

It is indicated in Section 14.06.045(1)(b) Development:

...To be considered for development permits, the Lot of Record must either meet the minimum lot size requirements of the zoning district in which it is located, or, if the Lot of Record does not meet the minimum lot size requirements of the zoning district in which it is located (a "Substandard Lot of Record"), it must meet one or more of the exemptions identified in SCC 14.16.850(4)(c).

It is indicated in Section 14.16.850(4)(e)(i) that only non-residential structures are allowed on substandard parcels located within the Agricultural-Natural Resource Land.

This Lot of Record may be conveyed individually, or in combination with the parcel associated with Lot of Record, PL08-0214 (P15749). However individually, this Lot of Record is not eligible for residential development.

It should also be noted, that even if Parcels P15746 and 15749 were combined, the acreage would still not total 40 acres and would not be eligible for residential development.

Lot of Record Certification PL08-0214, Parcel P1549:

Lot Certification PL08-0214 is comprised of the legal description associated with Parcel P15749. The subject property is currently vacant; the current zoning is Agricultural-Natural Resource Land. This zoning designation has a minimum lot size of 40 acres, at approximately 20 acres this Lot of Record is considered substandard in size to the zoning designation.

It is indicated in Section 14.06.045(1)(b) Development:

....To be considered for development permits, the Lot of Record must either meet the minimum lot size requirements of the zoning district in which it is located, or, if the Lot of Record does not meet the minimum lot size requirements of the zoning district in which it is located (a "Substandard Lot of Record), it must meet one or more of the exemptions identified in SCC 14.16.850(4)(c).

It is indicated in Section 14.16.850(4)(e)(i) that only non-residential structures are allowed on substandard parcels located within the Agricultural-Natural Resource Land.

This Lot of Record may be conveyed individually, or in combination with the parcel associated with Lot of Record, PL08-0082 (P15746). However individually, this Lot of Record is not eligible for residential development.

Lot Certification PL08-0215 is comprised of the legal descriptions associated with Parcels P15854 and P15857 and is currently vacant. The current zoning is Agricultural-Natural Resource Land. At approximately 79 acres this Lot of Record exceeds the required minimum lot size and is considered eligible for one residential development.

Lot Certification PL08-0216 is comprised of the legal description associated with Parcel P15858. The subject property is approximately 1.5 acres. It appears that there is a barn and employee housing located on the property. Although, substandard to the Agricultural-Natural Resource Land minimum lot size requirement of 40 acres, this parcel does comply with Skagit County Code Exemption 14.16.850(4)(c)(vii)(A) and therefore is considered eligible to be considered for development permits.
