## BARGAIN AND SALE DEED

THE GRANTOR, Scott Paper Company, a Pennsylvania corporation, for and in consideration of Ten Dollars (\$10.00) and other good and valuable consideration, in hand paid, bargains, sells, and conveys, to Crown Pacific, Ltd., an Oregon corporation, Grantee, the real estate described on Exhibit "A" attached hereto, situated in the County of Skagit, State of Washington.

### MINERALS RESERVATION

Grantor hereby excepts from the above-described real property (the "Property") and reserves unto Grantor, its successors and assigns, the "Mineral Estate", as described below:

1. Description of the Mineral Estate. The substances herein excepted and reserved include the following minerals: all metals, precious or base; metallic and nonmetallic minerals; ores; mineral products; mineral materials, and substances in, on, or lying beneath the surface of the Property, except, earth soil, building stone, rock, sand and gravel (hereinafter "Materials"), which Materials are hereby granted to Grantee subject to the rights of Grantor in Paragraph 2, below.

The metals, metallic and nonmetallic minerals, ores, mineral products, mineral materials and substances hereby reserved include gold, silver, copper, lead, zinc, molybdenum, vanadium, mercury, tin, iron, alumina, uranium, thorium, and other fissionable materials; oil, gas and other hydrocarbons; coal, lignite and peat; helium, carbon dioxide and other gaseous materials; and geothermal resources in, on, or lying beneath the surface of the Property, whether in solid, liquid, fluid, or gaseous forms and without regard to whether one or more of them may be found on or near the surface or at depth beneath the surface and without regard to the method by which the same may or must be mined, extracted or removed. Such substances are referred to hereinafter, whether expressly named or not, as "Reserved Minerals."

2. Rights Reserved. The rights reserved herein include the following rights, but only to the extent permitted by and in accordance with all applicable laws, rules and regulations, and as further limited by the provisions hereof:

(a) The right to explore for, develop, extract, mine, save, store, mill, process, concentrate, refine, stockpile, convert, treat, remove, transport, sell, dispose of, and market the Reserved Minerals, either singly or in conjunction with minerals from other properties, and

any by-products produced therewith or therefrom, all by any method whatsoever, including, without limitation, underground, surface, open-pit, or strip-mining methods;

(b) The right to the extent necessary in exercising Grantor's rights hereunder, to disturb, remove, consume or use Materials in, on, or lying beneath the surface in connection with the exercise of the rights stated in subparagraph (a), above;

(c) The right of ingress, egress, and regress to, across, through, and from the surface of the Property, as reasonably necessary for the exercise of the rights stated in subparagraphs (a) and (b), above; and,

(d) The right to occupy and use so much of the surface of the Property as may be reasonably necessary for the exercise of the rights stated in subparagraphs (a), (b) and (c), above.

3. Relationship Between the Mineral Estate and the Non-Mineral Estate. The estate created by the reservation in Grantor of Reserved Minerals is referred to herein as the "Mineral Estate," and the estate of Grantee is referred to herein as the "Non-Mineral Estate." The Mineral Estate shall be the dominant estate and, as such, shall be dominant over the Non-Mineral Estate. However, the exercise of rights in the Mineral Estate, including without limitation the rights described in Section 2 hereof, shall in all respects be subject to the limitations described in this Reservation.

(a) Grantor shall not have the right to commence mining of Reserved Minerals from the Property by surface, open-pit, or strip-mining methods, without the prior written consent of Grantee, which consent may be withheld in the event (i) such proposed mining would violate any obligations of Grantor pursuant to this Reservation or (ii) Grantor is then in default of any of its obligations to Grantee pursuant to this Reservation.

(b) In any event, Grantor shall not be entitled to commence mining of Reserved Minerals from the Property without (i) giving to Grantee not less than eighteen (18) months prior written notice thereof, which notice shall contain a description of the portion(s) of the Property which will be affected by such mining, the expected duration thereof, the proposed method of such mining and proposed access to such mining activity; and (ii) unless waived by Grantee, delivering to Grantee an adequate bond or other acceptable financial undertaking from a third party protecting Grantee with respect to all damages which may be caused to the Property by such mining activity or the creation of access thereto, and (iii) delivering to Grantee a certificate for public liability insurance from a responsible company with limits of not less than \$5,000,000, or such amount in excess thereof as Grantee shall reasonably request. Such insurance shall be maintained throughout the time during which Grantor conducts mining activities on the Property, shall cover all risks arising

directly or indirectly out of Grantor's activities on the Property and shall protect Grantor and Grantee against claims of third persons. The certificate evidencing such insurance shall contain an endorsement requiring thirty (30) days written notice to Grantee prior to any change or cancellation of such coverage.

(c) If, in exercising the rights stated in Paragraphs 2(a) through 2(d), Grantor shall thereby interfere with Grantee's enjoyment and use of the Property, shall damage the Property, or shall thereby cause a diminution in the value of the Non-Mineral Estate or the Materials, Grantor shall be liable to pay to Grantee damages in an amount fairly to compensate Grantee for such damage and for the loss of Grantee's enjoyment and use of the Non-Mineral Estate and the Materials. Such right to damages shall be in addition to any other rights and remedies at law or in equity which may be available to Grantee for a default by Grantor in exercising its rights pursuant to this Reservation. If suit or action is instituted in connection with this Reservation, the prevailing party shall be entitled to recover in addition to costs such sum as the court may adjudge reasonable as attorney fees on trial and on any appeal.

(d) In exercising any of its rights hereunder, Grantor shall promptly repair and restore the Property as nearly as reasonably practicable to its condition prior to the exercise of any such rights.

(e) In the event of mutual interference on account of conflicting activities of Grantor in the enjoyment and use of the Mineral Estate, and of the Grantee in the enjoyment and use of the Non-Mineral Estate and the Materials, Grantor shall, subject to the other provisions of this Reservation, have the prior and superior right to carry out its activities.

4. Taxes. Grantor is and shall be solely liable for any and all property or other taxes levied or assessed against the Mineral Estate reserved herein or levied or assessed against any activity of Grantor in the exercise of the enjoyment and use of such estate, and shall pay all such taxes when due.

5. Indemnity. Grantor shall indemnify and defend Grantee from any claim, loss or liability arising out of or related to any activity of Grantor on the Property or any condition of the Property under the control of Grantor.

6. Right of First Refusal.

6.1 Grantor shall not, at any time prior to the expiration of ten (10) years after the date hereof, sell, contract or sell, transfer, exchange, grant an option to sell or otherwise dispose of its rights pursuant to this Reservation (or any portion thereof or interest therein) (the "Mining Rights") to any party other than Grantee, unless Grantor shall first have communicated to Grantee, by written notice, a written offer to sell the Mining Rights to Grantee, which offer ("Grantor's

8907070037

-3-

Offer") shall specify in detail the price, terms and conditions upon which Grantor is willing to sell the Mining Rights.

6.2 Grantee shall have a period of ninety (90) days, following the giving of the Grantor's Offer, within which to accept the Grantor's Offer by giving Grantor written notice of acceptance. If the Grantor's Offer is accepted, the parties shall be obligated to close the sale in accordance with the terms of the Grantor's Offer. Closing shall occur within thirty (30) days following acceptance or within such longer closing period as may be specified in the Grantor's Offer.

6.3 If Grantee does not accept the Grantor's Offer, Grantor may sell the Mining Rights, subject to all the terms and conditions of this Reservation, to any other party, provided that such a sale must be consummated (a) within six (6) months following the earlier of the expiration date of the acceptance period of the Grantor's Offer or the date of any written rejection by Grantee of the Grantor's Offer, and (b) for and upon the same price, terms, and conditions as those specified in the Grantor's Offer (or for a greater price and upon terms and conditions more favorable to Grantor). If such a sale is consummated to a third party, Grantee's rights pursuant to this Paragraph 6 (but not Grantee's other rights pursuant to this Reservation) shall be forever extinguished. If, however, such a sale to a third party is not so consummated, Grantee's rights pursuant to this Paragraph 6 shall remain in full force and effect.

Grantor and Grantee hereby expressly acknowledge that the agreed consideration for this deed was adjusted and fixed in contemplation of the reservation by the Grantor of the Mineral Estate, including all of the foregoing rights, subject only to the rights of Grantee expressed herein.

#### ROAD USE EASEMENT RESERVATION

Further, Grantor hereby excepts from the Property and reserves unto Grantor, its successors and assigns, including its contractors and licensees, a non-exclusive easement over and upon any and all logging roads, as well as the right to construct such additional roads as may be necessary, for purposes of obtaining access to and removing forest products from lands adjacent to or adjoining the Property and upon which Grantor has or shall have the right to harvest and remove forest products. Any damage caused to any road so used shall be repaired by Grantor at Grantor's expense. Reconstruction, alteration or substantial improvements of existing roads must receive approval in advance by Grantee, which approval shall not be unreasonably withheld.

#### HYDROELECTRIC PROJECT SITE EASEMENT RESERVATION

Further, Grantor hereby reserves the right to use that portion of the Property located in Sections 20, 29 and 32 of T. 35 N., R. 11 E., W.M., as well as the non-exclusive right to use roads in sections 17, 18 and 19 of T. 35 N., R. 11 E., W.M., in which Grantee has rights, as are necessary or appropriate for the construction, maintenance and operation of the

hydroelectric project currently pending before the Federal Energy Regulatory Commission ("FERC"), filed August 1, 1983 under Project No. 9787 (Jordan Creek), or its successor project(s). Such right to use shall exist during the period of the described permits, licenses or exemptions (or successors thereto) and shall apply to all project property hereinabove described and covered by said permit license or exemption (or successor thereto) as currently proposed to the FERC and as later amended, including but not limited to the project area, the project works, and all franchises, easements, water rights, and rights of occupancy and use as are necessary for the construction, maintenance or operation of such project. Such right to use shall apply equally to Grantor's co-owner(s) in such project and to successors, assignees, designees or agents of Grantor or its co-owner(s) in this project. To the extent that any property rights which are necessary for the construction, maintenance or operation of such projects are not previously owned by Grantor, Grantee agrees that neither it nor its successors or assigns shall take any action which serves to prevent Grantor or its co-owner(s), or the successors, assignees, designees or agents of Grantor or its co-owner(s) from obtaining necessary property rights from third parties; provided that Grantee, its successors and assigns shall not thereby be precluded from acquiring any such property so long as Grantee, its successors and assigns, thereafter upon request grant to Grantor, its successors and assigns, use rights with respect thereto on substantially the terms and conditions set forth herein.

In connection with the construction, maintenance and operation of the project, Grantor, its successors and assigns, shall comply with all terms and conditions of the FERC permit issued with respect thereto and all applicable laws, ordinances, regulations, and other requirements of governmental authorities. Grantor, its successors and assigns, shall indemnify and hold harmless Grantee, its successors and assigns, from all claims, losses, liabilities, and expenses (including without limitation reasonable attorneys' fees) arising out of the activities of Grantor, its successors and assigns under this reservation.

In connection with the construction, maintenance and operation of the project, Grantor, its successors and assigns, shall use all reasonable efforts to minimize interference with any logging operations of Grantee, its successors and assigns. To the extent that any timber is required to be removed for purposes of the activities undertaken hereunder, Grantor, its successors and assigns, shall give Grantee, its successors and assigns, not less than thirty (30) days notice thereof and shall deck any such timber for removal by Grantee, its successors and assigns, who shall retain ownership thereof.

The foregoing reservation shall automatically terminate and be of no further force and effect upon any termination or revocation of the FERC permit applicable to the project and all rights reserved hereunder to Grantor, its successors and assigns shall thereupon revert to Grantee, its successors and assigns.
