Paul:

I am sending you this letter since you are the owner of record of Parcel P50081. As I wrote to you last week I have put a lock on my Prairie Lane gate of Parcel P50066 and fenced the north property line of that parcel. Because that driveway no longer provides access to your parcel it is imperative that you go to the Skagit County Planning and Development Office (1800 Continental Place Mt Vernon, Wa.) to acquire an application for an address on Prairie Road. Once that address has been given to you and an address placard posted at your Prairie Road easement all Emergency Service Vehicles will know how to reach your property. You will also want to notify your propane provider, UPS, real estate professionals, and any other companies that need to find you. Puget Power has a utility easement on my Parcel which they will continue to use to service the transformer (that you and I share) and your meter base which are on my property as well. The next owner of your property will need to make arrangements to relocate the meter base to his property. You can continue to receive your mail at 4466 Prairie Lane. However, the next owner of your property will need to begin using the Prairie Road address unless, of course, that buyer chooses to purchase my property as well. If you or your agents need to communicate with me the only means is by e-mail..That address is:
