Removal from Designated Forest Land and Compensating Tax

The county assessor will remove land from designated forest land when any of the following occur:

1. Receipt of a notice from the land owner to remove it from designation;
2. Sale or transfer to an ownership making the land exempt from property taxation;
3. Sale or transfer of all or a portion of such land to a new owner, unless the new owner has signed a Notice of Continuance for designated forest land on the Real Estate Excise Tax Affidavit or the new owner is an heir or devisee of a deceased owner;
4. Determination by the assessor, after giving the owner written notice and an opportunity to be heard, that:
 - a. The land is no longer primarily devoted to and used for growing and harvesting timber;
 - b. The land owner has failed to comply with a final administrative or judicial order regarding a violation of the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW or;
 - c. Restocking has not occurred to the extent or within the time frame specified in the application for designation as forest land.

Removal of designation applies only to the land affected, and any remaining forest land must meet the definition of forest land under RCW 84.33.035 to continue as designated forest land. Within 30 days after removal from designated forest land, the assessor must send the owner a written notice, setting forth the reasons for the removal.

Compensating Tax

Compensating tax recaptures taxes that would have been paid on the land if it had been assessed and taxed at its true and fair value instead of the forest land value. The assessor uses the current year's levy rate, the last assessed forest land value, and the true and fair value as of January 1st of the year of removal from designation to calculate the compensating tax for the land being removed. The compensating tax due is the difference between the amount of taxes assessed at the forest land value on the land being removed and the taxes that would have been paid at the true and fair value for the period of time the land was so classified or designated as forest land, up to a maximum of nine years, plus an amount using the same calculation for the current year, up to the date of removal.

Reclassification

You may apply to have the land reclassified as either Open Space Land, Farm and Agricultural Land or Timber Land under chapter 84.34 RCW. If an application for reclassification is received within 30 days of the postmark date of this notice, the land will not be removed from designation until the application is denied. If an application for reclassification was previously denied, a reapplication covering the same parcel of land, or a portion thereof, may not be submitted to the granting authority until 365 days have elapsed from the date the initial application for reclassification was received. WAC 458-20-215(8)

Appeal

The property owner or person responsible for the payment of taxes may appeal the assessor's removal from designation and/or the true and fair value calculated as of January 1 of the year of removal to the County Board of Equalization. Said Board may be reconvened to consider these appeals. The petition must be filed with the Board on or before July 1 of the year of the assessment or determination, or within thirty days after the notice has been mailed, or within a time limit of up to sixty days adopted by the county legislative authority, whichever is later. A petition form may be obtained by either contacting the assessor or the county board of equalization in the county in which the land is located. County contact information can be found at the following website:
