DRINKING WATER QUALITY SYSTEM REPORT

I, the undersigned property owner, in making an application for a building permit involving a single-family residence acknowledge that this notice is being signed, notarized and recorded in compliance with Skagit County Code Section 12.48.270 in regards to a drinking water alternative source requiring special treatment.

1. I agree to record this notice with the Skagit County Auditor's Office for the purpose of it being made a part of the record of title.
2. I understand that this notice will appear on any title search or record search, and we have no objection nor will we make claims against Skagit County as a consequence of this recording.
3. The drinking water for this individual residential use is a lake source (Lake Cavanaugh) S1-28595C limited to 150g/day. The drinking water source is an unprotected surface source. Treatment is provided by a whole house filtration system located in house and consists of: Pentek PBH-420-1(five micron filter), Pentek BP-420-1(one micron filter) and a Pentek/Pentair GD-2501-20BB (one micron absolute) filter with a ultra-violet Sanitron 537C Disinfection Purifier. The Health Officer recommends that property owners exercise caution in the use of this drinking water system by:
 - a. This property may not be subdivided unless PUD is available to all lots,
 - b. The building permit for the residence on P#66545 is conditioned upon treatment being provided for the water source that will remove water quality concerns,
 - c. The property owner shall sample and maintain the treatment system to avoid adverse health effects as any untreated water is considered unsafe for consumption, and
 - d. The property owner shall abandon this water source as a source of potable water per WAC 173-160 and connect to PUD when it becomes available.
4. Water systems with filed status reports will not be used for the creation of new lots.
5. Specific drinking water system information for this lot is on file at the Skagit County Planning and Development Services. (WA15-0073)
