both parties. Each party in this agreement shall be responsible for the maintenance, repair, and replacement of pipe supplying water from the common water distribution piping to their own particular dwelling and property.

#### **WELL SANITARY CONTROL AREA**

The parties herein agree to establish the right to make reasonable regulations for the operation of the system, such as the termination of service if bills are not paid.

#### **SYSTEM DISSOLUTION**

If a dispute arises between the users which cannot be resolved, they may dissolve this water user's agreement and develop a second water system so that each of the two properties is served by their own individual water systems. In this case, the second well may be drilled in the designated. If the
