EXHIBIT "A"Exceptions
(continued)

Recorded: August 20, 1998
Auditor's No.: 9808200071
Executed By: Summersun Greenhouse Co., a Washington corporation
As Follows:

"This boundary line adjustment description revises current ownership boundary lines of those parcels described in documents recorded under Auditor's File Nos. 8911300094, 878371, 8608040066, and 8705280072.

This boundary line adjustment is not for the purpose of creating an additional building lot. The property described above composes one undivided parcel. The division of the parcel into sections A, B, C, D, E within this deed is for clarity alone and does not imply that this property is actually five separate parcels.

The above lot line adjustment will create a parcel containing structures which do not comply with minimum setback requirements. The Grantee hereby agrees that any future construction requiring a building permit from the City of Mount Vernon, which is performed on structures deemed nonconforming with respect to minimum setback requirements as a result of this boundary line adjustment, shall require compliance with applicable minimum setback requirements or shall require a variance from the City of Mount Vernon prior to construction. For a structure that is subject to this paragraph, "compliance with minimum setback requirements" shall be defined as and require that new construction be restricted to that area which is a distance from the lot line equal to the sum of the following:

- 1.) The minimum setback requirements for the lot on which new construction is occurring; and
- 2.) The number of feet that a permanent, pre-existing structure on an adjoining lot encroaches upon the minimum setback requirement as required at the date of this document. This paragraph shall apply only to those structures that are in non-compliance with setback requirements, in effect at the date of this document, as a result of this boundary line adjustment."

concerning 4173 Autumn Way Mount Vernon WA 98273 (the "Property")
Address City State Zip

Buyer is aware that the Property may be subject to the Skagit County Right-to-Manage Natural Resource Lands Disclosure, Skagit County Code section 14.38, which states:

This disclosure applies to parcels designated or within 1 mile of designated agricultural - land or designated or within 1/4 mile of rural resource, forest or mineral resource lands of long-term commercial significance in Skagit County. A variety of Natural Resource Land commercial activities occur or may occur in the area that may not be compatible with non-resource uses and may be inconvenient or cause discomfort to area residents. This may arise from the use of chemicals; or from spraying, pruning, harvesting or mineral extraction with associated activities, which occasionally generates traffic, dust, smoke, noise, and odor. Skagit County has established natural resource management operations as a priority use on designated Natural Resource Lands, and area residents should be prepared to accept such incompatibilities, inconveniences or discomfort from normal, necessary Natural Resource Land operations when performed in compliance with Best Management Practices and local, State, and Federal law.

In the case of mineral lands, application might be made for mining-related activities including extraction, washing, crushing, stockpiling, blasting, transporting and recycling of minerals. If you are adjacent to designated NR Lands, you will have setback requirements from designated NR Lands.

Seller and Buyer authorize and direct the Closing Agent to record this Disclosure with the County Auditor's office in conjunction with the deed conveying the Property.
