Document Title:	NATIVE GROWTH PROTECTION EASEMENT
Grantor:	MOUNT VERNON SCHOOL DISTRICT #320
Grantee:	CITY OF MOUNT VERNON
Legal Description:	A portion of the EAST 1/2 OF THE SOUTHWEST 1/4 OF THE NORTHEAST 1/4 OF SECTION 22 TOWNSHIP 34 NORTH RANGE 4 EAST W.M. (See Exhibit B)
Assessor's Parcel/I.D. Number:	P-125967 and P131738

NATIVE GROWTH PROTECTION EASEMENT

THIS NATIVE GROWTH PROTECTION EASEMENT ("Easement") is made this ___ day of August, 2018 by Mount Vernon School District #320, a Washington Municipal Corporation, hereinafter referred to as the "Grantor" or the "District" and the City of Mount Vernon, WA, a Washington Municipal Corporation, hereinafter referred to as the "Grantee" or the "City".

WHEREAS, the Grantor wishes to create and convey to Grantee a non-exclusive Native Growth Protection Easement as required by the Critical Areas Permit issued to the Grantor by the Grantee on April 26, 2017 (the "Permit"); and

WHEREAS, the Permit authorized the modification of certain wetland buffers as shown in the District's Critical Areas Report that accompanied the Permit (see Condition No. 1 of the Permit); and

WHEREAS, the City's Critical Areas Ordinance, section MVMC 15.40.040 L, and the Permit required the District to record a Native Growth Protection Area easement over

all wetlands and associated buffer areas on the subject site (See Permit Condition No. 8), which are depicted in **Exhibit A**, attached hereto ("Easement Area"); and

WHEREAS, the Easement Area is located on the Harriet Rowley Elementary School ("School") site that has unique access limitations and requirements for public safety and the safety of school children and others; and

WHEREAS, the Grantor is the owner of the real property that this Easement burdens as described in **Exhibit B**; and

NOW THEREFORE, the Grantor, as a condition of the City's Critical Area Ordinance and the Permit, hereby grants and conveys to Grantee a permanent non-exclusive easement for conservation purposes in, over, on, under, across and through the wetlands and associated buffers within the Easement Area identified in **Exhibit A**, attached hereto, together with the right of ingress and egress to and from the Easement Area for the purpose of monitoring and enforcing proper operation and maintenance of the Easement Area as follows:

- I. The intent of Grantor and Grantee, through this Easement, is to preserve, protect and maintain the wetland and wetland buffers within the Easement Area and limit use of the Easement Area containing identified wetlands and buffer area(s), defined pursuant to MVMC Chapter 15.40 – Mount Vernon Critical Areas Ordinance, for the purpose of protecting the ecological functions and values provided by said wetlands and its buffer.
- II. This Easement grants the City the right to access, monitor and maintain the wetlands and wetland buffers in, over, on, under, across and through the Easement Area, in compliance with all applicable rules and regulations related to such actions, and subject to the requirements and limitations provided herein.
- III. This Easement establishes and creates an obligation of the Grantor its heirs, successors and assigns to maintain and protect the Easement Area and leave undisturbed all trees and other vegetation within this area, except for the removal of diseased or dying vegetation that presents a hazard, subject to the requirements and limitations provided herein.
- IV. The rights granted herein shall be subject to the following requirements:
 1. Limitations on Grantor Use. Unless approved by the City in writing in advance, Grantor shall not, except as provided below:
 - a. With the exception of activities identified as Allowed without a Specific Development Permit under MVMC 15.40.020(D), any land-use activity that could impair the functions and values of wetland and their buffers within the Easement Area through a development activity or by disturbance of the soil or water, and/or by removal of, or damage to, existing vegetation shall require critical areas review and written authorization pursuant to Chapter 15.40 of the MVMC. No clearing,

grading, filling, logging or removal of woody material, building, construction or road construction of any kind, planting of non-native vegetation or grazing of livestock is allowed within the Easement Area, except as specifically permitted by the City of Mount Vernon on a case-by-case basis consistent with Chapter 15.40 of the MVMC.

- b. Construct any fill, improvements, install utilities or trails within the Easement Area; or
 - c. Remove any vegetation or trees within the Easement Area, unless such vegetation or trees are determined by a landscaper or arborist retained by the Grantor to be a hazard requiring immediate removal, in which case the Grantor may cut, prune and/or remove such vegetation or trees with hand tools; or
 - d. Excavate, fill, or otherwise alter the topography of the Easement Area; or
 - e. Grant or allow any road or utility construction or easements; or
 - f. Construct, erect, or place any building, structures or improvements either of a permanent or temporary nature; or
 - g. Deposit lawn clippings or similar in the Easement Area.
2. City Access Limitations. All access to the Easement Area by any City official or any representative of the City shall be conducted in coordination with and in compliance with the District's school access and visitation policies, which at a minimum require prior permission from the School obtained at the School's main office. The City may not delegate or assign any access rights to any non-city official without the prior written approval of the district, and such access may be conditioned by the District which shall not be unreasonably withheld or materially impair the City's ability to investigate performance of this Easement.
3. Limitations on Grantor Liability and Obligations.
- a. The Grantor shall maintain the Easement Area, provided however that the Grantor does not assume any obligation to install any improvements to Easement Area, except as expressly provided herein.
 - b. Grantor shall not be liable to any party or agency, nor be responsible in any manner for any unauthorized damage, fill or development within the Easement Area conducted by any trespassers including but not limited to homeless squatting in the Easement Area or other unauthorized parties ("Unauthorized Users") within the Easement Area.

- c. Should any disturbance of the Easement Area occur by the Grantor or as a result of the Grantor operations or by the Grantor's contractors, employees, or agents, the Grantor shall have the obligation to restore and return the affected area to its natural state immediately, under the provisions of a City approved mitigation plan.
- d. Notwithstanding the limitations in Section I and III, the Grantor may take reasonable means and measures to bar Unauthorized Users from accessing the Easement Area, may remove any Unauthorized Users from the Easement Area, and may remove any material or improvements left by any Unauthorized User within the Easement Area. The Grantor may install permanent fencing, security cameras and signage (in addition to the already installed NGPA signs), so long as such fencing does not adversely impact habitat connectivity around the Easement Area if the Grantor determines there is substantial likelihood of adverse impact through intrusion by Unauthorized Users. Prior to installation of permanent fencing other than the split rail fence already installed on-site, the Grantor shall consult with the City to ensure compliance with MVMC Chapters 15.40 (Critical Areas) and 17.99 (Fences and Walls).

4. General Conditions.

- a. The City of Mount Vernon shall have the right, but not the obligation, to enforce the requirements, terms and conditions of this Easement after notice to the Grantor and providing a reasonable opportunity to cure any alleged breach, by any method available under law. The obligation to ensure all terms of this Easement are met is the responsibility of the Grantor.
- b. By acceptance of the Easement for the purposes described, the City of Mount Vernon does not accept or assume any liability of acts or omissions of the Grantor or its invitees, licensees or other third parties within the easement area. Grantor holds the City harmless from any damage or injury to any property or person by any person entering the easement area not expressly authorized to do so, except for the City employees, officials, agents, contractors or invitees as a result of their negligence.
- c. The parties recognize that this Easement is created, granted and accepted for the benefit of the inherent natural functions provided by the wetland and buffers within the Easement Area, but shall not be construed to provide open or common space for Grantor or members of the public. This Easement does not by operation of law grant or permit public access to any portion of the Easement Area.

- d. The Easement granted herein shall be construed as an easement running with the land, and the benefits and burdens herein shall inure to and be binding on Grantee, Grantor, and their heirs, successors and assigns; provided, however, the City may not assign its right in this Easement to any third party without the express written consent of the District.
- e. Grantor retains the right to use and possession of the Easement Area granted to the extent permitted by the City of Mount Vernon as low impact uses and activities which are consistent with this Easement, City regulations, and do not detract from its integrity. Such uses may be permitted by the City within the Easement Area depending on the sensitivity of the habitat involved. Grantor reserves the right to use the Easement Area for other uses consistent with the intent and purpose of this easement, such as a habitat enhancement project for mitigation of impacts arising from other projects of the Grantor.
- f. Any consent required from any party herein may be subject to reasonable conditions.
- g. Grantor covenants that it owns the property legally described herein and has lawful right to convey the Easement in the property to the City.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed as of the dates set forth above:
