Declarations

The Department of Ecology (Ecology) makes the following declaration as to the limitations, restrictions, and uses for which the water may be put to use and specify that such declarations shall constitute covenants on the land, as provided by law, and shall be binding on all parties and all persons claiming under them, including all current and future owners of any portion of or interest in the property:

- (1) Mitigation is provided for one domestic unit on the subject parcel, as approved by the County when the building permit was issued.
- (2) For accounting purposes, the Big Lake Mitigation Plan debits 0.156 acre-feet (50,833 gallons) per year for indoor domestic use and limited outdoor irrigation. This annual quantity is calculated based on average water use and an understanding that the home is served by an on-site septic disposal system.
- (3) Any new domestic water use (e.g., additional plumbed building) beyond uses established between April 14, 2001 and October 3, 2013, will require installation and maintenance of a remote read metering system at the approved well location, to show compliance with the Big Lake Mitigation Plan and the water use assumptions described therein. The landowner may contact Ecology's Water Resources Program or Skagit County Planning and Development Services for guidance on the installation of this system.
- (4) Nothing in this Proof of Mitigated Water Supply document prevents the property owner from using other water on this parcel if the Grantor has a legal right to such other water. In addition, nothing in this Proof of Mitigated Water Supply document prevents the

Grantor from using their approved groundwater well to withdraw additional water if Grantor has a legal right to such additional water.

- (5) Ecology retains the authority to enforce the water laws and rules of the State of Washington. Enforcement and compliance shall be consistent with the provisions of RCW 90.03.605.
