WLA buffer area on the subject parcel (note: buffer extends beyond property line)

WLA = Wetland A, Cat III, 110' buffer

This diagram was created by S&S for the purpose of identifying the approximate location of the wetland areas onsite. This is not a survey, locations are approximate, and the client is responsible for confirming all measurements, which should be taken from the flagging placed onsite. This is an illustration only

The proposed mitigation area is intended to be flexible, provided it encompasses at least 525 sq. ft near the wetland.
