The property may be subject to the Skagit County Right-to-Manage Natural Resource Lands
Disclosure, Skagit County Code Section 14.38, which states:

"This disclosure applies to parcels designated or within 1 mile of designated agricultural land or
designated or within 1/4 mile of rural resource, forest or mineral resource lands of long-term
commercial significance in Skagit County. A variety of Natural Resource Land commercial activities
occur or may occur in the area that may not be compatible with non-resource uses and may be
inconvenient or cause discomfort to area residents. This may arise from the use of chemicals; or from
spraying, pruning, harvesting or mineral extraction with associated activities, which occasionally
generates traffic, dust, smoke, noise, and odor. Skagit County has established natural resource
management operations as a priority use on designated Natural Resource Lands, and area residents
should be prepared to accept such incompatibilities, inconveniences or discomfort from normal,
necessary Natural Resource Land operations when performed in compliance with Best Management
Practices and local, State, and Federal law.

In the case of mineral lands, application might be made for mining-related activities including
extraction, washing, crushing, stockpiling, blasting, transporting and recycling of minerals. If you are
adjacent to designated NR Lands, you will have setback requirements from designated NR Lands."
