 - Did your table raise any issues that they found missing that we should listen for in the rest of our Community Listening sessions
 - We know the issue statements capture reality from a data perspective and from long discussions by the Trust reflecting their sector expertise. How well do you think the issue statements capture the needs of our community as you hear them expressed?
 - When you think of the variety of populations reflected in Skagit's communities, what key health and wellness issues are you concerned about for specific populations?
 - What strengths would you like the Trust to build on as we move next to think about health improvement planning?
