The Skagit County

Central Services Cost Allocation Plan

Introduction

Skagit County (the County) provides a wide variety of services to the citizens of Skagit County. Skagit County is a municipal corporation incorporated November 28, 1883. The County operates under a Commission form of government, and has all powers granted by the constitution and laws of the state. The County provides the full range of services contemplated by statute or charter. The governmental activities of Skagit County include a full range of local government services provided to the public, such as law enforcement and public safety; the superior, juvenile, and district court systems; legal prosecution and indigent defense; jails and corrections; road construction and maintenance; planning and community development; parks and open space preservation; and care and welfare of the disadvantaged and mentally ill. In addition, other general government services are provided, such as elections, property assessment, tax collection, and the issuance of licenses. The business-type activities of Skagit County include a Solid Waste Utility, Drainage Utility, and the Skagit County Jail.

The County is a local government, established as a subdivision of the State of Washington. It is funded mostly from local taxing sources, but is funded from some Federal awards and pass-through awards from the State of Washington.

The County administers various federal and state funded programs. While the federal portion of the County's total funding is important, it is not a major source of funding for the County.

The County is submitting this Central Services Cost Allocation Plan (CSCAP) prepared in accordance with principles and procedures of the U.S. Office of Management and Budget 2 CFR Part 200, Cost Principles for State, Local and Indian Tribal Governments (OMB Circular A-87 Revised), Attachment C. The County is not considered a "major local government", so its cost allocation plan does not need to be approved by a federal cognizant agency.

The County has substantial historical data upon which to build the CSCAP. However, the County assigns volumes of transaction data or staff assigned to specific programs based on actual data from the preceding year and those assignments are quantified and described in this CSCAP.

Submission and Documentation Requirements

The County has used the guidance for preparing this CSCAP provided by Cost Principles and Procedures for Developing Cost Allocation Plans and Indirect Cost Rates for Agreements with the Federal Government – Implementation Guide for Office of Management and Budget Circular A-87 (document ASMB C-10). 2 CFR Part 200, Subpart E – Cost Principles discusses submission and documentation requirements. The table below lists the features of the CSCAP, whether the feature is not applicable and where the information is provided in this CSCAP.

	Location
Central Services Cost Allocation Plan Feature	Provided
1 General	
a An organization chart sufficiently detailed to show operations including the central service activities of the State/local government whether or not they are shown as benefiting from cenetral service functions.	Appendix A

	not applicable.	

Certificate of Cost Allocation Plan

This is to certify that I have reviewed the cost allocation plan submitted herewith and to the best of my knowledge and belief:

- (1) All costs included in this proposal as of December 31, 2021 to establish cost allocations or billings for the year ended December 31, 2023 are allowable in accordance with the requirements of the 2 CFR Part 200, "Cost Principles for State, Local, and Tribal Governments," and the Federal award(s) to which they apply. Unallowable costs have been adjusted for in allocating costs as indicated in the cost allocation plan.
- (2) All costs included in this proposal are properly allocable to Federal awards on the basis of a beneficial or causal relationship between the expenses incurred and the awards to which they are allocated in accordance with the applicable requirements. Further, the same costs that have been treated as indirect costs have not been claimed as direct costs. Similar types of costs have been accounted for consistently.

I declare that the foregoing is true and correct.

Title: Skagit County Auditor

Date of Execution:

Skagit County

Description of Central Services

Introduction

The County provides support services to operating departments in nine (9) Central Service Departments. In addition support services are provided in six (6) Internal Service funds or subfunds that include self-insurance and fringe benefit programs.

Operating departments may charge one another for actual services provided. This is typically based on actual time charges captured in a time reporting system or a job cost system. This CSCAP does not quantify or present amounts of these interdepartmental charges as these charges are outside of the central service allocation or direct billed services plan.

The County uses the Cayenta software system for its accounting and financial reporting processes. Costs are captured at various levels of detail. In descending order, costs are captured at the fund, sub-fund, department, division, activity/project and job cost levels. Direct Federal awards programs and Federal awards passed through from the State of Washington are typically assigned a discrete project number or job cost number.

Certain central service departments use division or activity designations to separately account for services which are allocable to benefitting functions using a different allocation base and methodology. As a result, certain departments show more than one pool and how it is allocated to benefitting functions in the summary schedules of cost allocation in Appendix B.

Central Service Functions

The following provides a description of the central services and the benefitting functions presented in Appendix B. The costs presented in Appendix B are actual costs for the year ended December 31, 2020. The costs have been summarized, for presentation purposes into six direct categories; Salaries, Benefits, Supplies, Services, Intergovernmental and Capital.

Commissioners

The Board of County Commissioners serves as the County's legislative body and as chief policy makers for many important County operations and functions. The commissioners are responsible for the adoption of a balanced budget for each calendar year; for adopting, amending and repealing ordinances and laws of the County, such as those governing traffic,

zoning; and general health, safety and welfare of the public. The Commissioners are responsible for the operation of budget and administration of programs under the control of all departments without a separately elected official.

The Commissioner's Office provides overall guidance to all County functions through the budgeting and regulatory process. Costs are directly related to the amount of Commissioners' session time available. Therefore, the Commissioner's Office costs will be allocated to those funds that have standard agenda time with the Commissioners on the basis of regular agenda time scheduled for the respective functions as a percentage of total agenda time. For 2022, costs will be allocated to General Fund, Public Health, Mental Health, County Road, Senior Services, Planning and Development, Homeless Assistance and Housing and County Jail.

The Calculation is:

Commissioner's Office Expenditures
less Board of County Commissioners'
Salaries & Benefits

Applicable Fund's Related Agenda Time

Total Agenda Time

The County Board of Commissioners costs are allocated to benefitting departments based on the agenda time that is specifically designated for that purpose. Agenda matters that do not benefit a specific function are tracked separately and are not allocated to specific departments. Approximately 60% of the Commissioners-agenda items-relate-to-a specific function.—As-such, approximately 40% of the Commissioner's Office expenditures (less the Board of County Commissioners' salaries and benefits) are retained in this cost pool and are not distributed to County departments.

Assessor

The Assessor's function of valuation, notification of assessed value, and computation of tax are directly related to the dollar value of tax levy. Therefore, the Assessor's Office costs will be allocated to all Funds that levy taxes on the basis of the applicable fund's tax levy as a percentage of the total operating taxes levied by the Assessor. The Drainage Utility Fund will not be allocated a portion of the cost of the Assessor's Office as the assessment for the Drainage Utility Fund is formula driven not value based.

The Calculation is:

Assessor's Expenditures less Elected		Respective Fund's Tax Levy			
Official's Salary & Benefits	X	Total Operating Taxes Levied			

The Assessor's Office provides services to other jurisdictions for which taxes are levied and collected by the County. Approximately 75.92% of operating taxes relate to these other jurisdictions. As such, approximately 75.92% of the Assessor's Office expenditures (less the Assessor's salaries and benefits) are retained in this cost pool and are not distributed to County departments.

Treasurer

The County Treasurer holds a key position of public trust in the financial affairs of local government. Acting as the "bank" for the County, schools, ports, hospitals, and fire districts, along with other units of local government, the Treasurer's Office receipts, disburses, invests, and accounts for the funds of each local jurisdiction. In addition, the Treasurer is charged with the collection of various taxes and assessments that are distributed on a regular basis to each of these governmental units. The Treasurer is required to conduct bond sales, which are authorized by the County or other local jurisdictions. A detailed record is kept of each bond for the allotted period of time. The Treasurer administers and collects that real estate excise tax on the sale or transfer of ownership of real property. The Treasurer's Office administers DOE Water Quality Loans; audits and recovers sales and use tax on businesses and erroneously coded vehicles licensing fees; implements the yearly tax foreclosure sale and conducts additional sales needed on County owned or tax title property; and administers the BUCKS program, which is a required course for all County employees handling cash. With responsibilities extending beyond the scope of County operations, the County Treasurer plays a key fiduciary role in the operation of local government.

The Treasurer's Office workload is most directly and logically related to tax levies. As a result, the Treasurer's Office costs will be allocated to all applicable Funds including the Drainage Utility Fund on the basis of the respective tax levy as a percentage of the total operating taxes levied by the Assessor. This is the same basis used to allocate the Assessor's costs. As such, approximately 75.92% of the Treasurer's Office expenditures (less the Treasurer's salaries and benefits) are retained in this cost pool and are not distributed to County departments.

The calculation is:

Treasurer's Expenditures less		Respective Fund's Tax Levy
Elected Official's Salary/Benefits	X	Total Operating Taxes Levied

County Auditor

The County Auditor independently oversees all County offices to ensure fiscal compliance with State law and County policy. The County Auditor aggressively administers a program of internal auditing to provide the County with a very high level of confidence that County assets are

safeguarded to the highest reasonable degree. The County Auditor, as the official keeper of accounts for the County, designs and administers the accounting system for the County and maintains the highest standard of care to ensure the integrity of all accounting records and reports.

The main function of the Auditor's Office, which is significantly related to all County Funds' activities, is the accounting function. The accounting function costs will be allocated to all applicable funds based on the average of the percentage of full time equivalents employees (FTE's) and the percentage of total accounts payable transactions.

The calculation is:

(1)	Respective Fund FTE's Total County FTE's	+	Respective Fund AP Transactions Total County AP Transactions
(2)	Percentage	X	Accounting Dept. Expenditures

Administrative Services

The County Administrator oversees the Budget and Finance Director, the Director of Human Resource Management, Communications, Upriver Services and serves as an aide to the Skagit County Board of Commissioners. The Administrator is also responsible for oversight of the day-to-day management responsibilities in the board directed departments.

The County Administrator oversees Budget and Finance, the Director of Human Resources/Risk Management, and Communications and serves as an aide to the Skagit County Board of Commissioners. The Administrator is also responsible for oversight of the day-to-day management responsibilities in the board directed departments.

Budget and Finance — The Budget and Finance division manages budget and financial management matters for the County. Duties include: Coordinating the annual budget process, financial analysis, budget preparation, budget management, revenue forecasting, project management and contract management.

The budget and finance function costs are allocated to benefitting departments based on actual expenses as it most closely tracks the effort of the budget and finance function in providing its financial services.

Communications – The Communications division is responsible for leading, planning, and implementing public engagement plans and programs, including public information, public involvement, community relations and media relations, to achieve the County's strategic goals.

Administrative Services provided include the coordination of efforts and administration of services aimed at improving employee productivity and management of County government. The specific functions presently serving all applicable Funds are: general administrative services, budget/financial management and communications. The costs will be allocated based on a ratio of respective fund's total actual expenses divided by total County actual expenses.

The calculation is:

Administrative Services		Respective Fund Actual Expenses
Expenditures Less Human Resources	X	Total County Actual Expense

Human Resources — Human Resources ensures the best qualified personnel are recruited and employed to staff Skagit County. Staff continues to strengthen administrative rules and regulations and develop harmonious relationships among all employee groups. They are responsible for monitoring all employee benefits as well as classification and/or salary studies in order to maintain the integrity of the County. Human Resources engages in the process of recruiting, screening, departmental personnel services, benefits management, record keeping, salary and compensation assessment, union negotiations and a host of other personnel related services for all County Funds and Departments.

The human resources function costs are allocated to benefitting departments based on the count of full time equivalents (FTE's) as it most closely tracks the effort of the human resources function in providing its services. The cost will be allocated based on a ratio of FTE's by Fund divided by total FTE's for the County.

The calculation is:

Human Resource		Respective Fund FTE
Expenditures	X	Total County FTE

General Maintenance

General Maintenance provides building maintenance and custodial services for County Facilities. This includes but is not limited to the following: mechanical and electrical equipment services, building maintenance and upkeep, custodial services, land maintenance, leases for

additional space and establishing contracts for services and supplies and payments of all utilities. Facility Management provides general repair and maintenance, custodial services, safety and health specialists/training, and mechanical, plumbing, electrical, and security systems services.

The general maintenance function costs are allocated to benefitting departments based on the square feet of occupied space for each department as it most closely tracks the effort of the general maintenance function in providing its facilities maintenance services. The costs will be allocated based on a ratio by the fund of building square footage for County maintained buildings divided by the total square footage for County maintained buildings. Bond payments from this department will not be included.

The calculation is:

Facilities Management: Salaries and Wages, Personnel Benefits, Supplies, Utilities & associated operational expense

Respective fund bldg, maintenance sq ft

X Total County bldg, maintenance sq ft

Prosecuting Attorney / Civil Division

The Prosecutor, through the Civil Division, provides legal-advice to all departments of the County. Upon request of the Commissioners, this office litigates civil cases, advises all departments regarding legal matters, and enforces the Skagit County Code. The costs will be directly charged to respective funds on an actual or estimated basis.

Non-Departmental

The Non-Departmental Department is used to record those expenditures that are not directly associated with any particular department within the County. These costs are allocated to benefitting departments based on Modified Total Direct Cost. Only those costs that benefit all departments are included in the allocation.

Internal Service Funds

The County accounts for services provided to operating departments in six (6) internal service funds or sub-funds. The services and methods of calculating the assessments from these internal service funds are briefly described below.

Insurance Services

The Insurance Services Department recognizes and evaluates potential liability, monitors insurance coverage and trends, property liability and casualty losses, and investigates claims. Billings are based on the history of claims and operating expenses and are billed out annually at year end. The rate varies per year based on the amount of claims, property values, and actual expenses incurred. The rate for 2020 was \$21 to \$1,797,267 annually.

The Insurance Services Fund is also used as a holding account for employee benefits. Premiums are transferred into the Insurance Services Fund and payments are made to the claims processor as service provider invoices are submitted. The County is self-insured for medical, dental, vision, and unemployment claims. Medical and Dental accrual rates are determined by an actuary on an annual basis. Those actuarial numbers are used, in conjunction with negotiated union contracts, to set accrual rates on an annual basis. The composite rate for 2020 was \$18,072 per year for a full time employee. (This includes medical, dental, life, vision and EAP.)

Information Services

The Information Services (IS) Department is the County's central technology provider. This department provides the computer and business information system support required by the County departments. These services include network services, systems support, application development and maintenance and general PC support.

Billings are based on the amount of expenditure per cost center divided by the metric used to allocate costs for that cost center. Differing metrics are used based on the type of expense. The rate for each cost center changes from quarter to quarter based on the expenses incurred by each cost center. The rate for 2020 was \$0 - \$1,161,276 per quarter.

Geographic Information Services

The Geographic Information Services (GIS) office is a centralized service center that provides mapping and GIS services to meet the business needs of our partners, customers, and clients within Skagit County and the communities we serve. This includes providing support and maintenance in the areas of data conversion, cartography, remote sensing, computer graphics and visualization, Global Positioning Systems (GPS), database design, software development, address system maintenance, and 911- database maintenance.

Billings are based on the actual number of hours spent on a project. The rate for 2020 was \$37.16 to \$74.47 per straight time hour of work.

Records Management

The Records Management Department is responsible for management of all County records, including property records, court records and any other records that pertain to the County. They also convert County records from paper files to either microfilm or optical images to reduce the bulk of records. The Records Management Department is also responsible for the purchase of all copiers and supplies for all county departments as well as interoffice and USPS mail.

Billings are based on the estimated number of time spent on records management and mail services for billed departments and the number of copiers used by a department as a percentage of total copiers. Billed amounts vary by billing period. The rate for 2020 was \$6,517 to \$371,734 semiannually.

Unemployment Compensation

The Unemployment Compensation Insurance Fund receives payments from operating funds and departments. The monies received are used for payment of actual claims paid by the state. The County is self-insured for unemployment claims. Billings are based on the history of claims and operating expenses. The rate for 2020 was 1.5% of the first \$60,000 of salary.

Equipment Rental Fund

The Equipment Rental and Revolving Fund (ER&R) is responsible for managing the acquisition, assignment, and disposition of fleet equipment, maintaining and repairing fleet equipment, maintaining fleet equipment records, providing short-term motor pool service, and administering a capital fleet equipment replacement plan all in support of the Sheriff's Department, General Government, and Public Works Divisions such as the Solid Waste Utility and Road Maintenance and Construction. The charges for services are designed to recover costs at or near breakeven while ensuring a positive cash balance in the Fund. Customers pay a monthly or hourly replacement fee to the Fund for each specific vehicle set at an amount designed to recover adequate funds to replace the vehicle at a future date mutually agreed upon by ER&R and the customer at the time the vehicle goes into service. ER&R also collects a fixed annual administrative overhead fee included in the lease rates for each vehicle to support wages and benefits, allocated costs, rent, and all other costs assessed to ER&R. The rate is \$79 to \$6,500 depending on the estimated amount of time a piece of equipment spends in the shop and whether or not it has a County-installed radio. Equipment is charged out at either hourly or monthly rates, depending on the type of equipment. Current rates are \$2.75 to \$205 per hour and \$62 to \$14,445 monthly. Vehicles are charged an hourly shop rate of \$79.00/hour designed to recover all of the costs of providing fleet maintenance and repair services. Parts and materials are charged at actual cost plus a management fee. Rock is charged actual cost plus a 37% management fee. Pool vehicle rental fees are intended to support the cost of fuel,

maintenance, replacement costs, and administration. Pool vehicle rental fees are assessed a monthly rental fee for the use of a pool vehicle. All assessments and charges are reviewed annually and updated as needed.

Fringe Benefit Plans and Related Costs

Health and benefit costs are accounted for in the Insurance Services Fund described above. Unemployment compensation benefits are accounted for in the Unemployment Compensation Internal Service Fund. The county also provides pension benefits through its participation in the State of Washington's Public Employee Retirement System (PERS). Each of the PERS plans is a cost-sharing multiple-employer plan with employer and employee contribution rates established by the Washington State Legislature.

Cost Allocation Methodology

Introduction

The County provides support services to operating departments in nine (9) Central Services Departments. In addition support services are provided by six (6) Internal Service funds or subfunds that include self-insurance and fringe benefit programs.

Operating departments may charge one another for actual service provided. This is typically based on actual time charges captured in a time reporting system or a job cost system. This CSCAP does not quantify or present amounts of these interdepartmental charges as these charges are outside of the central service allocation or direct billed service plan.

The County uses the Cayenta software system for its accounting and financial reporting processes. Costs are captured at various levels of detail. In descending order, costs are captured at the fund, sub-fund, department, division, activity/project and job cost levels. Direct Federal award programs and Federal awards passed through from the State of Washington are typically assigned a discrete project number or job cost number.

Certain central service departments use division or activity designations to separately account for services which are allocable to benefitting functions using a different allocation base and methodology. As a result, certain departments show more than one pool and how it is allocated to benefitting functions in the summary schedules of cost allocation in Appendix B.

Accounting, Financial Reporting and Cost Allocation Systems

The County uses the Cayenta accounting software to accumulate costs in division, activity/project or job cost numbers that are linked to each department within a fund. The accounting system is able to produce cost reports by fund and sub-fund. The sub-fund and/or division designations for each central service function are combined into individual central service cost pools as is reflected in Appendix B.

Each central service cost center grouping uses a unique method to allocate its costs to the benefitting departments. However, several central services use the same base upon which to allocate costs. Other cost center groupings may use different methods for certain segments of its cost pool for allocation based on data it accumulates during the preceding year.

The accounting system provides for determining the allocation basis prior to the fiscal year to be used in the allocation of central service costs to funds/departments for budget control and management purposes.

Specific Cost Allocation Methodologies Used in the CSCAP

As provided in the Description of Central Services Section of this CSCAP, each central service cost center grouping uses a unique base, upon which to allocate its costs. The central service functions allocated in this CSCAP are grouped by the allocation base used as follows:

Central services that use authorized Full Time Equivalents (FTE):

- Administrative Services Human Resources use FTE as the only allocation base.
- The County Λuditor uses FTEs for one-half of its allocation base with the remainder using accounts payable transaction counts.

Central services that use operating tax levies:

- Assessor's Office
- Treasurer's Office

The efforts in these central services are directly related to the dollar value of the levies assessed and collected by the County. These central service functions provide services to other jurisdictions for which taxes are levied and collected by the County. Since approximately 74% of operating taxes relate to these other jurisdictions, approximately 74% of the costs of these central service functions are retained in this cost pool and are not distributed to County departments.

Central services that use actual expense data:

- Administrative Services Budget and Finance
- > Non-Departmental

The effort in this central service includes compiling and monitoring the annual budget as well as the overall administration of the County. The effort is most closely related to the dollar value of the expenses tracked through the financial system.

Central services that use specific data tracking systems to provide for an indication of effort and related benefit:

- ➤ The County Commissioners use an agenda tracking system to determine its efforts for the prior year.
- The legal-civil function provides an estimate of its actual effort by department, (e.g. direct labor hours) to provide for an allocation of its effort.
- The general maintenance function tracks the square feet of County facilities occupied by each County department.

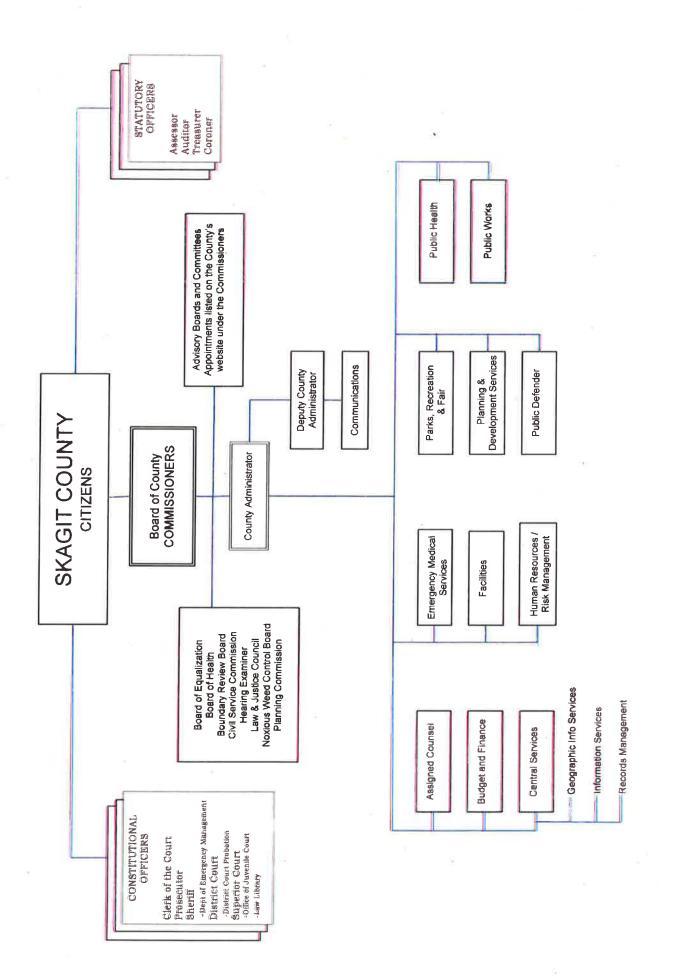

Cost Accounting Procedure:

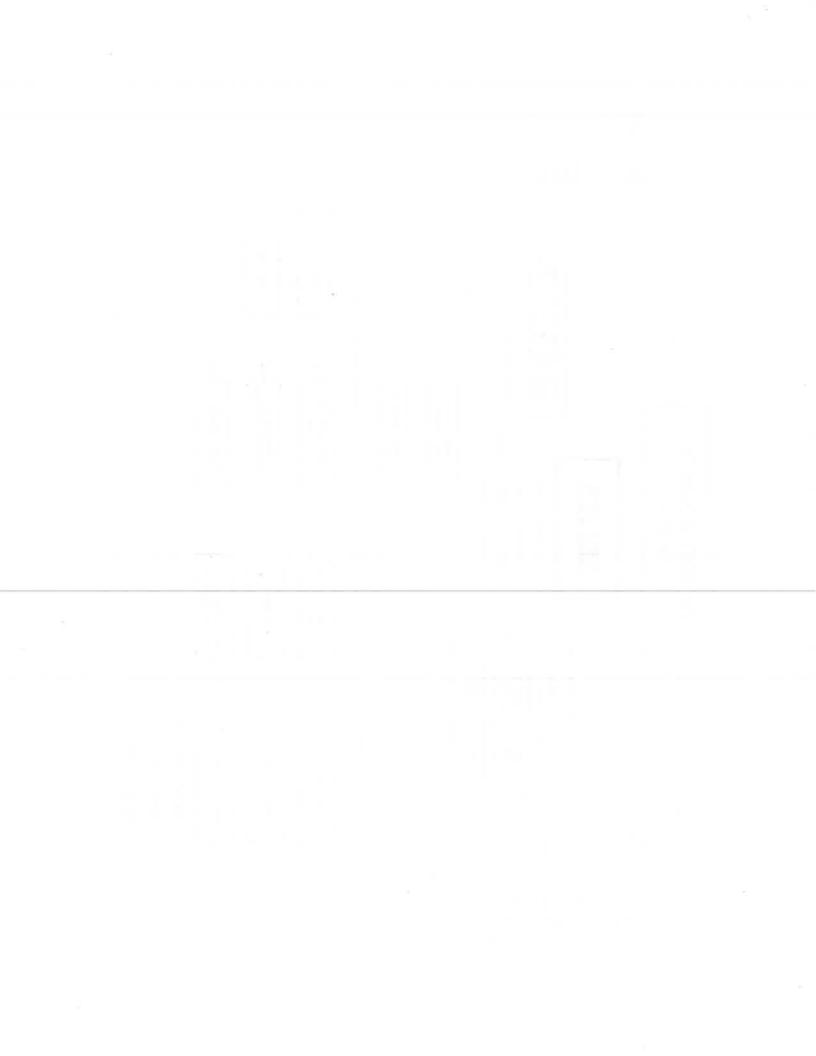

Costs are accumulated in funds, departments, divisions, activity/project and job cost numbers as previously described. The cost allocation plan is used to calculate an indirect cost rate for each operating fund/department to use in the ensuing year. At the end of each fiscal year, County accounting staff applies the allocation factors to the actual costs incurred and generates a journal entry to transfer costs out of central service cost centers (senders) and into the operating department (receivers).

Certain internal service funds also gather costs in certain cost centers using project numbers in the financial system to "bill" its users. This is used mainly for services in which underlying billing basis remains relatively constant during the year, such as the number of email accounts or direct labor hours. Other internal services use a direct charge basis whereby costs are transferred using a journal entry based on the actual transactions for the prior month. The Cayenta system is able to process internal service fund "assessments" prior to calculating the amount of the central service assessments.

Since the County uses a single-tier allocation methodology, whereby central service departments only charge operating departments and not one another, the County does not need to run two assessment proceeding steps.

Appendix A: Organization Chart

Appendix B: Summary and Detail Cost Allocation Plan Components

Fund No.	Fund Name	Total Allocated Costs	MTDC	General Fund Indirect Cost Rate	Internal Service Indirect Cost Rate	Total Indirect Cost Rate	From FS plus transfers out less capital outlay	Allocated Costs	Pass Thru Grants	Pmts to IS Funds and Special Revenue Funds
