

**Notice of Written Comment Period and Public Hearing
Skagit County Board of Commissioners**

The Skagit County Board of Commissioners has released a proposal that would amend Skagit County Code Titles 2 and 14 codifying the establishment of the Skagit County Planning & Development Services Department and Planning Commission and amending procedures for adopting land use regulations to provide for greater public participation opportunities. Neither the current proposal, nor any previous version, included any revision that would have affected the Planning Commission's role in providing recommendations on land use plans and development regulations.

The Board will hold a public hearing on Tuesday, September 24, 2013, at 10:30 am in the Commissioners' Hearing Room at the address below. The Board will also accept written comments until that time via email or letter at the addresses below. Please reference the "Planning and Land Use Legislation Ordinance."

A complete copy of the proposal is available at www.skagitcounty.net/plul, or at the address below. Pursuant to RCW 36.32.120(7), the full text of the proposal will be mailed upon request.

The Commissioners' Hearing Room is accessible for individuals with special needs or disabilities. Call the Commissioners Office at least four days before the hearing to discuss and arrange any needed accommodations.
