

Skagit County Department of Emergency Management

Training and Exercise Calendar

May, 2019

New Additions to the Calendar:

FEMA395 Earthquake Safety and Mitigation for Schools see page 8

For Currently Scheduled:

ICS 300 Courses please see page 23

ICS 400 Courses please see page 24

CERT classes, please see page 22

Please direct questions or listings for the Training and Exercise Calendar to Vickie Fontaine at vickief@co.skagit.wa.us.

(New items are highlighted in **yellow**)

(Changes are in **RED**)

Washington EMD's Training Link for Course Information and Registration

Washington EMD's training calendar is located at <https://www.mil.wa.gov/training-and-exercise>. Just click on the link under the header titled, "In State Training Calendar". That is where you will find our current list of upcoming courses and a link to view course details and registration information. The new system will allow you to register for an account but will not require you to do so. Registering for an account saves your registration information in the system and saves time when you register for future events. Registration for an account also saves any completion certificates you send in with your application to your profile. The new system will do marketing, registration, evaluations, and certificate issue.

Each user will still have their existing TRAIN-National Profile. Your account will remain active and your username and password are unchanged. Your TRAIN-National Profile will still have all of your certificates and transcript of completed courses. You may access the TRAIN-National profile by clicking on the following link: <https://www.train.org/main/home>, and logging in using the same credentials as before. Click on 'YOUR LEARNING' tab to access your certificates and transcripts.

Go to https://reg.abcsignup.com/reg/reg_login.aspx and have a look.

You may also find training at the below listed resources:

FEMA Region X Training Opportunities: http://fema.mhsoftware.com/ViewNonBannerMonth.html?year=2017&month=5&offset=-1&Calendar_id=2&integral=0&dropdown=0&show_stop=0&show_resources=0

FEMA Nationwide Training Opportunities: <https://training.fema.gov/emcourses/Calendars.aspx>

Oregon State Training Opportunities: <http://www.oregon.gov/oem/emresources/Pages/Training.aspx>

Idaho State Training Opportunities: <https://www.idahoprepares.com/preceptorStudent/Calendar.k2>

For FEMA Courses: Skagit County cities and tribes, as directed by Washington State EMD and FEMA Region X, please forward FEMA Form 119-25-1 applications to Vickie Fontaine for local Emergency Management sponsor approval. Please ensure your application is complete and includes any prerequisite course certificates.

WEBINAR TRAINING

Emergency Preparedness Leadership	Online – available any time		New Online Training Series Available in Emergency Preparedness Leadership From outbreaks to natural disasters to terrorism threats,	http://www.nwcphp.org/training/opportunities/online-courses/emergency-preparedness-leadership-series

			<p>state, local, and tribal public health agencies play an important role in responding to emergencies in their communities.</p> <p>NWCPHP's <u>new training series in emergency preparedness leadership</u> helps public health professionals fulfill their roles by building the unique leadership skills required for emergency preparedness and response. The training includes courses on three key topics for leadership during times of crisis: <u>managing change</u>, <u>making decisions</u>, and <u>communicating risks</u>.</p>	<p>Each course can be taken alone or as part of the series at no cost.</p>
<p>Elements of Leadership: decision-making & problem-solving under emergency conditions</p>	<p>Online- available any time</p>		<p>This course is designed to help public health staff improve their decision-making skills so that they are ready to make decisions in the event of a crisis. The course covers the naturalistic and recognition primed decision-making models, and then focuses on the ways in which leaders observe, orient, decide, and act during crisis situations. The course can be completed in approximately 2 hours and has a pretest, an interactive video based lecture hosted by Dr. David Abramson, a posttest, and a certificate of completion.</p>	<p>http://ncdp.crlctraining.org/catalog/course.asp?id=39&cid=3</p>

<p>The Hazmat Education</p>	<p>The Hazmat Center YouTube Channel</p>		<p>The IAFC Hazmat Center on YouTube will house all out video content for first responders looking for hazmat-response information.</p> <p>One playlist you will find on the channel is from the 50 Hazmat Questions video project. Filmed at the 2018 Hazmat Conference, these videos answer basic but vital hazmat-response questions. We will post one of these videos every week in 2019.</p> <p>We need your help? For this channel to grow, we need subscribers. Please visit our channel and hit the subscribe button. This will help us reach more people, and once we hit 100 subscribers, YouTube will grant us greater flexibility in how we manage our content.</p>	<p>https://www.youtube.com/channel/UCO38XVxayxJ2h5KTGiYDvcg</p>

<p>MGT-319 Medical Countermeasures: Points of Dispensing (POD), Planning & Response</p>	<p>5/14 – 5/15/19 House of Awakened Culture - Suquamish, WA</p>	<p>8am – 5pm</p>	<p>Course Description: This training course is to enhance jurisdiction preparedness and emergency response efforts by providing the knowledge of how to exercise and revise a plan that utilizes an all-hazards, whole community approach toward a medical countermeasures event. Assists with</p>	<p>Target Audience: Public Health Health care and ancillary service groups Law Enforcement Emergency Medical Services Fire Service Emergency Management Public Works Public Safety Communications Educational Community</p>

			<p>coordination of planning and training for, and responding to a medical countermeasure response for a public health incident. This course responds directly to the National Preparedness Goal; as it applies to delivery of medical countermeasures to exposed populations</p>	<p>Private Industry Non-Government Organizations (NGOs) Course Host: Amy Anderson Kitsap Public Health amy.anderson@kitsappublichealth.org</p> <p>Cherrie May Suquamish Tribe cmay@suquamish.nsn.us</p> <p>To Apply: https://reg.abcsignup.com/s_reg/reg_registration_maintenance.aspx</p>
<p>ATC-20, FEMA P-154 Combo Course</p>	<p>5/15/19 Mason County Public Works/DEM 100W Public Works Drive Shelton</p>	<p>8am – 5pm</p>	<p>ATC-20, Procedures for Post Earthquake Safety Evaluation of Buildings. This course provides instruction on rapid and detailed evaluation procedures for evaluating earthquake-damaged buildings and posting them as INSPECTED (apparently safe, green placard), LIMITED ENTRY (yellow placard), or UNSAFE (red placard). The training provides examples which allow attendees to evaluate building damage conditions, assess the overall risk from the damage, and recommend which of the three placards should be posted on the building. These evaluations and placards can be used in planning and executing evacuation, re-entry, and rebuilding strategies.</p> <p>FEMA P-154 Rapid Visual Screening of Buildings for Potential Seismic Hazards. This course provides instruction on how to identify potentially hazardous buildings before earthquakes occur. The training covers methods and processes that</p>	<p>Target Audience: The target audience for this course includes building officials, engineers, architects, building owners, emergency managers, risk analysts, and other interested citizens and volunteers.</p> <p>No Prerequisites</p> <p>Contact Course Manager: Tammi Wright Emergency Management Coordinator Mason County Division of Emergency Management 360-427-7535 tammiw@co.mason.wa.is</p>

			enable personnel to rapidly identify, inventory, and screen local buildings according to their expected safety and usability during and after earthquakes. Local officials can use this data to plan and prioritize further engineering and vulnerability analysis, emergency-response needs, and mitigation projects.	
MGT-342 Strategic Overview of Disaster Management for Water and Wastewater	5/15/19 Environmental Services Building 9850 64th Street W University Place, WA 98467	8am – 12pm	<p>The National Infrastructure Protection Plan identified water and wastewater (WWW) systems as critical infrastructure (CI). These systems are critical to the communities' public health and economic development. The interdependencies between WWW, other CI sectors, and emergency management require a common understanding by jurisdiction stakeholders of water sector impacts. This overview course provides an opportunity to work together to improve community resiliency.</p> <p>This course will introduce frameworks for WWW disaster management including portions of the Environmental Protection Agency's Response Protocol Toolbox. Participants will examine case studies and will have the opportunity to identify planning factors in response to a catastrophic event.</p> <p>Individuals seeking more in depth Water sector Disaster Management training should consider the 16 hour Disaster Management for Water and Wastewater Utilities MGT-343.</p> <p>Course Topics: Water and Wastewater System Vulnerability, Response and Recovery Processes</p>	<p>Prerequisites: Required: None Recommended: IS 100 IS 200 IS 700 IS 800</p> <p>Target Audience:</p> <ul style="list-style-type: none"> • Emergency Management • Public Works Management • Utility Management • Providers • Health Care and Hospital Management • Water Authorities • City and County Elected Officials • City and County Emergency Managers • Senior Emergency Response Personnel

			<p>Threats to Water and Wastewater Utilities</p> <p>Preparing For and Responding To Disasters Affecting Water and Wastewater Utilities</p>	<ul style="list-style-type: none"> • Water and Wastewater Utility Board Members, Operators and Field Personnel • Lab Personnel, Inspectors, Engineers • Senior Regulatory Officials • Tribal Council Member
<p>FEMA 395 – Earthquake Safety and Mitigation for Schools</p> <p>Seats Still Available</p>	<p>5/21/19</p> <p>Skagit County DEM</p>	<p>1pm – 5pm</p>	<p>School buildings in many states and U.S. territories are vulnerable to earthquake damage that threatens safety and continued operations. This course teaches participants how to: (1) assess and analyze seismic risks typical to school buildings; (2) develop actionable plans for reducing and managing these risks; (3) secure nonstructural components in school facilities; and (4) implement incremental seismic rehabilitation as an affordable approach for protecting existing school buildings and ensuring occupant safety.</p>	<p>The target audience for this training includes school officials, school administrators, teachers, facility managers, engineers and other stakeholders interested in reducing earthquake risks in school facilities.</p> <p>Please contact Vickie Fontaine below for registration information.</p> <p>Course Host: Vickie Fontaine Skagit County DEM vickief@co.skagit.wa.us 360-416-1860</p>
<p>G0205 Recovery from Disaster: The Local Community Role</p>	<p>5/29 - 5/30/19</p> <p>Confluence Technology Center Room C207 285 Technology Center Way #102WA Wenatchee, WA 98801</p>	<p>8 am – 5pm Daily</p>	<p>This course is the condensed version of the 4-day E0210 resident course. This course covers foundational concepts in disaster recovery and the latest guidance on recovery planning. Participants will either assess their own recovery plan or a sample against this national planning guidance. Following that, participants will discuss how a disaster recovery effort can be organized, managed, and led along with the types of challenges faced by recovery managers. Scenario activities throughout the course give participants the opportunity to target information strategies, and address local capabilities and</p>	<p>Prerequisites: Recommended: IS0100.b, Introduction to the Incident Command System, ICS 100; IS2900, National Disaster Recovery Framework (NDRF) Overview</p> <p>Target Audience: This course is designed for local elected officials (mayor, city/county council member), tribal leaders, city/county manager/staff, city/county planners/staff, regional planning commissions, economic development districts, finance director/assessor, emergency manager/staff, public works director/staff, building inspector/staff, floodplain manager/staff, health care administrator or planner, public</p>

			<p>challenges. They will also analyze lessons learned from Joplin, Missouri. While this is normally a 2.5 day course, in time of disaster, it can be shortened for immediate need in training the basics of recovery based on local need and covers the roles and responsibilities of local recovery team members.</p> <p>Course Objectives:</p> <ul style="list-style-type: none"> • Understand local community responsibilities and challenges associated with disaster recovery. • Discuss lessons learned in disaster recovery at the local level. • Develop and implement a pre-disaster recovery plan. 	<p>information officer, housing director or planner/staff, voluntary agency coordinator or unmet needs committee coordinator, business organization representative, administrative director/manager, state recovery staff and partners (so they can be tuned into recovery at the local level)</p> <p>Course Manager:</p> <p>Sandi Duffey Grant County Sheriff's Office 509-237-2987 sduffey@grantcountywa.gov</p>
<p>AWR-376 (OCT-617) Understanding a Targeted Cyber Attack</p>	<p>5/30/19</p> <p>Tacoma-Pierce County EOC</p>	<p>8am – 4 pm</p>	<p>Course Description:</p> <p>At the completion of this course, participants will be able to assist their organization in developing strategies to mitigate against, prepare for, respond to, and recovery from cyber-attacks used in Advanced Persistent Threats.</p> <p>Course Scope:</p> <p>This course provides students with a firm understanding of an advanced persistent threat. This knowledge will place them in a better position to plan for and recover from inevitable cyber-attacks. This course will fill the gap in threat specific training for cybersecurity as a community driven course that will focus on the Advanced Persistent Threat (APT); describing, analyzing and demonstrating the phases of an APT and the attack methods used. The course will also provide participants with prevention, mitigation, and response techniques that</p>	<p>Prerequisites:</p> <p>Required: None</p> <p>Recommended:</p> <ul style="list-style-type: none"> • AWR-136: Essentials of Community Cybersecurity • AWR-175W: Information Security for Everyone <p>Target Audience:</p> <p>This course was developed for information security and cyber security personnel and managers, emergency responders, risk management personnel, planners, critical infrastructure representatives from both private and public sectors, and other personnel responsible for identifying and responding to cyber incidents and those who are involved in developing organization strategies.</p>

<p>L0696 Communications Unit Leader (COML) Course (all-hazards)</p>	<p>6/25/19 WA EMD</p>	<p>8am – 5pm</p>	<p>Course Description: This service offering is designed for all state/territory, tribal, regional, and local emergency response professionals and for support personnel with a communications background. It is designed to familiarize these professionals with the role and responsibilities of a COML under the National Incident Management System (NIMS) Incident Command System (ICS) and to provide hands-on exercises that reinforce the lecture materials.</p> <p>Under the NIMS ICS structure, a COML is the focal point within the Communications Unit. This course provides DHS-approved and NIMS-compliant instruction to ensure that every state/territory has trained personnel capable of coordinating on-</p>	<p>Prerequisites: Prerequisites for attendance are: A public safety background with experience in field operations A technical communication backgrounds Awareness of fundamental public safety communications technology Basic knowledge of applicable communications plan</p> <p>Course Prerequisites: IS-100, Introduction to the ICS IS-200, ICS for Single Resources and Initial Incidents IS-700, National Incident Management System (NIMS), an Introduction IS-800, National Response Framework (NRF)</p>

			<p>scene emergency communications during a multi-jurisdictional response or planned event. OEC/ICTAP instructors are approved by DHS and have had extensive experience as COMLs.</p> <p>The course is presented with facilitated lectures, hands-on activities, and extensive interactive discussions. OEC/ICTAP instructors work through the discussions and activities to explain in detail the processes used to achieve communication operability, interoperability, and how to incorporate additional communications solutions.</p>	<p>ICS-300, Intermediate ICS for Expanding Incidents ICS-400, Advanced ICS Command and General Staff Complex Incidents, is recommended, but <u>not required</u> Course Manager:</p> <p>Justin Fordice State Training Officer WA Emergency Management Division Phone: 253-512-7056 Email: justin.fordice@mil.wa.gov</p>
<p>G0557 Rapid Needs Assessment</p>	<p>7/9/19 King County Office of Emergency Management</p>	<p>8am – 5pm</p>	<p>Course Description: This course provides information and resources that will enable participants to plan an effective Damage Assessment Program and conduct rapid and effective damage assessments in order to save lives, protect property and the environment, and begin the process of recovery and mitigation.</p> <p>Course Objectives:</p> <ul style="list-style-type: none"> • Describe the need and purpose of a Rapid Needs Assessment. • Describe the starting point for planning for a Rapid Needs Assessment. • Describe the process for staffing a Rapid Needs Assessment. • Describe the basic tools required to support the Rapid Needs Assessment process. • Describe the importance of planning data collection. • Describe the importance of redundant data transmission systems and means. 	<p>Prerequisites: Recommended:</p> <ul style="list-style-type: none"> • IS0100.b, Introduction to the Incident Command System • IS0200.b, Incident Command System for Single Resources and Initial Action Incidents • IS0700.a, National Incident Management System, An Introduction • IS0800.b, National Response Framework An Introduction • IS0120.a, An Introduction to Exercises; • IS0130, Exercise Evaluation and Improvement Planning <p>Target Audience:</p> <p>Staff of agencies or jurisdictions who are responsible for assessing, collecting, and reporting damages during and after any event that causes damage of private, public, and critical infrastructure.</p>

			<ul style="list-style-type: none"> Describe the importance of analyzing and reviewing data. Describe additional data sources available to support analysis. Describe the training requirements for the Rapid Needs Assessment Program. Describe how Rapid Needs Assessment plans and actions can be exercised in the community. 	<p>Course Manager:</p> <p>Eric O'Brien King County Emergency Management 206-205-4072 eric.obrien@kingcounty.gov</p>
<p>L0146 Homeland Security Exercise & Evaluation Program (HSEEP)</p> <p>Due to limited seats in the course, the application period will be open until July 26. All applications will be reviewed by the HLS Region 1 counties.</p> <p><i>Confirmed applicants will receive additional information no later than July 31st.</i></p>	<p>8/14 – 8/15/19</p> <p>Whatcom Unified Emergency Coordination Center</p>	<p>8am – 5pm daily</p>	<p>Course Description: This is an intermediate-level course that provides a comprehensive overview of exercise design along with practical skill development in accordance with the Homeland Security Exercise and Evaluation Program (HSEEP) Doctrine. This course uses activities that will give participants an opportunity to interact with many of the templates and other materials that are provided by the National Exercise Division to ensure exercises are conducted in a consistent manner. Selection Criteria: The program audience includes personnel from emergency management, emergency medical services, fire, law enforcement, government administrative, hazardous materials, healthcare, public health, public safety communications, public works, or any emergency management or response personnel who may have the opportunity to serve as part of an Exercise Development Team or a subsection of the same (i.e., evaluator, After-Action Report Writing Team, etc.)</p>	<p>Prerequisites: Required:</p> <ul style="list-style-type: none"> IS0120.a Certificate (Introduction to Exercises) A completed and APPROVED by your manager a FEMA Application Form 119-25. The state signs off when the course is completed. <p>Recommended:</p> <ul style="list-style-type: none"> IS-130: How to be an Exercise Evaluator IS-139: Exercise Design and Development <p>Visit FEMA's Emergency Management Institute to complete these Independent Study courses.</p> <p>Certified by FEMA Emergency Management Institute Prerequisite course for EMI's Master Exercise Practitioner Program (MEPP)</p>
<p>MGT-323 Instructor Development Workshop</p>	<p>9/4 – 9/6</p> <p>Camp Murray Building 91</p>	<p>8am – 5pm Daily</p>	<p>Course Description: This course primarily serves to give insight into adult education and to improve the instructional skills and styles of experienced</p>	<p>Prerequisites: The NCBRT recommends that participants have prior instructional and training experience and knowledge of instructional methodology.</p>

	<p>91 Armor Drive Camp Murray</p>	<p>instructors. The course focuses on best teaching and training practices, and it enhances understanding of instructional competencies set by the International Board for Standards for Training, Performance, and Instruction (IBSTPI). Emphasis is placed on the active, learner-centered style of delivery and student experience. The course includes problem-based training and concentrates on providing performance, technical, and higher-level skills instruction</p> <p>Course Topics: Expand their knowledge of instructional methodology Use key instructional terms and concepts Develop an instructional style that allows participants to communicate effectively as they teach and train Adapt instructional style to incorporate more enhancers from the adult learning process Demonstrate effective instructor competence and evaluate others in the effectiveness of instructional style Consider and analyze factors that could impact instructional effectiveness Create a personal professional development plan for improving instructional skills</p>	<p>To enroll in this course, participants must be U.S. citizens. Participants should be prepared to deliver two short presentations in small-group settings. The first, ten-minute presentation should focus on a casual topic such as a hobby or a process. The second, fifteen-minute presentation should focus on a topic that is work- or job- related. Target Audience:</p> <ul style="list-style-type: none"> • Emergency Management • Emergency Medical Services • Fire Service • Governmental Administrative • Hazardous Material • Law Enforcement • Health Care • Public Health • Public Safety Communications • Public Works • Agriculture • Animal Emergency Services • Citizen/Community Volunteer • Information Technology • Security and Safety • Search & Rescue • Transportation • Other <p>Course Manager: Damaris Li State Training Coordinator Damaris.Li@mil.wa.gov</p> <p>To Apply:</p> <p>Please apply over following link: Please register here at NCBRT/LSU. Classes at the Snohomish County Chapter
May-Nov 2019

5/9/19

To ask training questions or register: trygve.anderson@redcross.org
To request EDGE help or sign up for a free first aid course: jonathan.todd@redcross.org

- Wonder what classes other chapters are offering? Go to your Volunteer Connection homepage, then My Chapter then Regional Disaster Training. Our own chapter's courses are shaded green.
- Lack of registrants sometimes leads to canceled classes. Only those who have registered are notified.
- If there are prerequisites, drop-ins will be turned away because we won't have time to check.
- Unless designated otherwise, you are welcome to provide your own food to eat during classes.

This training schedule focuses on rarely-offered classes that volunteers need for their GAPS. Some are prerequisites for later GAP classes. Take them now because we won't offer them again for a long time.

Date & times changed: The two ConOps classes moved from June 29 to same times on June 22 & prerequisite due dates changed. Times have been added for several other classes.

Supervising the Disaster Workforce Saturday, May 11, 9am-5pm, Boeing Room

Includes a 30 minute break to buy lunch and return to eat it during class.

All new, current, and prospective supervisors and above will be required to take this course before assignment on a disaster relief operation. Required before promotion, and for retaining a promotion.

Includes information on working with event based volunteers, new progressive discipline, issue resolutions procedures, intergenerational communications, and worker satisfaction.

Feeding Fundamentals version 2 Wednesday, June 12, 6:30-9:30pm Boeing Room

Provides skills and knowledge about components and requirements of feeding. Prerequisites: • Mass Care: An Overview (online) • Basic Food Safety (online)

Prerequisites must be completed by June 10 or registration will be canceled on June 11. We cannot check on class day.

Psychological First Aid Saturday, June 15, 9:30am-2pm, Boeing Room

Factors that affect stress responses in disaster relief workers and the clients they serve. Introduces the principles of psychological first aid, and guidelines for when to refer to a Disaster Mental Health worker. Participants engage in practice exercises.

Disaster Assessment Monday, June 17, 6-9pm Boeing Room

DAT will especially find these skills useful. The disaster assessment people are the first on the disaster scene. Their reports drive the initial response to the disaster and the assistance given to clients. Learn how to determine if a house is affected, has minor damage, major damage, or is destroyed, and how to report it.

Concepts of Operations Management Sat, June 22, 9am-2pm, Boeing Room

This course is required for all disaster workers in leadership positions: For promotion to supervisor and also for current supervisors and above to retain their positions. We will not offer it again this year. Please bring food to eat during class because **NO** break to go buy food.

Required prerequisites:

Disaster Cycle Services: An Overview • Concept of Operations Basics (online) • Operations Planning Fundamentals (online) • Incident Reporting Fundamentals (online).

Prerequisites must be completed by June 19 or registration will be canceled on June 20. We cannot check on class day.

Concepts of Operations Simulation *Immediately follows the above class.* Sat, June 22, 2:30pm-5:30pm, Boeing Room

This sequel to the above course is also required for all disaster workers in leadership positions, either for promotion to supervisor or above, or to retain those positions. We probably will **not** offer it again this year.

Required prerequisites: Everything for Concept of Operations Management plus the Concept of Operations Management course (offered this morning). ***Prerequisites must be completed by June 19 or registration will be canceled on June 20. We cannot check on class day.***

Basic Instructor Specialty Training Saturday, July 27, 9am-5pm Boeing Room

This course is by permission only so this session is not listed in EDGE yet. A request from your disaster program manager or training lead is required to begin the process of enrolling. This training starts you on the path to become a Red Cross disaster instructor. The required prerequisites will be explained after acceptance into this course. Contact Trygve Anderson trygve.anderson@redcross.org for further information. Class limited to 10 participants.

All prerequisites must be completed by July 24 or registration will be canceled on July 25. We cannot check on class day.

Collaborating Essentials Saturday, August 17, 10am-4pm Boeing Room

Learning the different skills and behaviors required for building and maintaining internal and external relationships. This is a prerequisite for **Facilitative Leadership Skills for Mobilizing the Community** which we will offer this autumn.

Defensive Driving Monday, August 19, 6-9:30pm Basement classroom

Learn to avoid crashes by anticipating what the other drivers might do. A defensive driving course is required for all drivers of Red Cross vehicles, which includes rental vehicles during disasters. Strongly recommended by our chapter for deployment. Some insurance companies give discounts to drivers who have taken this course within the past three years.

Financial & Statistical Information Management ("FSI") Saturday, August 24, 10am-12:15pm, Boeing Room

Participants will learn to:

- Assign and account for the usage of Client Assistance Cards (CACs).
- Assign and account for the usage of Disbursing Orders (DOs).
- Manage the confidential master case files of Red Cross clients.

Disaster Operations Control: Form 5266 Fundamentals *Immediately follows the above class.* Saturday, August 24, 1-2:45pm, Boeing Room

Form 5266 as a management tool for recording information about services provided and financial commitments made during a relief operation.

Participants will learn how the form helps leadership on the scene its make decisions.

Shelter Management Saturday, Sept 7, 9:30am-5:30pm Boeing Room

This class allows qualified participants in our Oct 5 Shelter Simulation to serve in the manager track. Introduces the roles, responsibilities and tasks of the shelter manager.

Prerequisites: • **Supervising the Disaster Workforce (offered 5/11/19)** • **Shelter Fundamentals (online)** • **Basic Food Safety (online)**

All prerequisites must be completed by September 5 or registration will be canceled on September 6.

We cannot check on class day.

Integrated Care Condolence Team Fundamentals ("ICCT") Saturday, Sep 14, 10-2:30, Boeing Room • Especially for Disaster Health Services, Disaster Mental Health, Casework and Recovery planning, and Disaster Spiritual Care GAPS • Provide compassionate, effective services for families who have lost a loved one, or who have missing or hospitalized loved ones. • Know the Integrated Care Condolence Team Standards and Procedures doctrine and roles, responsibilities and processes. • Apply to real-life situations You can bring your own lunch or have half an hour to buy it.

Shelter Fundamentals Saturday, September 28, 10am-2pm Boeing Room

Sheltering is the core of what we do. This basic course takes participants through four of the six phases of the Sheltering Cycle: Opening, Organizing, Operating and Closing.

It is a prerequisite for the Shelter Simulation offered a week from today.

There will NOT be a break for lunch and no food provided so you may bring food to eat during class.

Shelter Operations Simulation Saturday, October 5, 10am-5pm Boeing Room

An all day realistic simulation with actors (26 last time!) portraying clients. It builds upon **Shelter Fundamentals, which is a required prerequisite**, and which we offer the previous Saturday and also is available in EDGE. (Without the Shelter Fundamentals class, a person would be lost in this simulation.) This simulation has both a worker track and for qualified people a manager track, so specify which is appropriate for you. If you want manager track you must take our manager class Sep 7 or elsewhere. Class limit 20. **Lunch provided.**

Government Operations Fundamentals Saturday, Oct 12, 10am-4:30pm Boeing Room

This rarely-offered course introduces the roles, responsibilities and tasks of the Red Cross government liaison. Participants engage in activities and scenarios that Red Cross government liaisons typically encounter. **NO** break to go buy food so please brown-bag your lunch to eat during class.

Defensive Driving Monday, Oct 28, 6-9:30pm Basement classroom

Learn to avoid crashes by anticipating what the other drivers might do. A defensive driving course is required for all drivers of Red Cross vehicles, which includes rental vehicles during disasters. Strongly recommended by our chapter for deployment. Some insurance companies give discounts to drivers who have taken this course within the past three years. **Last chance to take it before next Saturday's ERV class!**

ERV: Ready Set Roll Saturday, Nov 2, 9am-1pm Boeing Room

No break for lunch so bring something to eat during class.

Become a highly skilled Emergency Response Vehicle driver. This is the classroom portion. The 2 hour driving experience will be by arrangement with the instructor, either this day or soon after.

Prerequisites: Have taken Defensive Driving or equivalent since 1/1/17 (we offer it on Aug 19 and Oct 28, the Next Generation ERV class online and the online class Basic Food Safety. Also, ask Kelly Sunagel to request a free DOL driver abstract, required before the check ride.

Logistics Saturday, Nov 9, 9:30am-12:30pm Boeing Room

Take this course if you expect to be deployed because everything in a disaster response is supplied by logistics: Vehicles, buildings, tables, food, vests, pens, dumpsters, diapers, aspirin, water, cots, everything! You'll need these things on deployment so this course helps you understand how and why logistics make their decisions, the procedures they must follow, and how to complete a requisition so they understand exactly what you want and where.

Bulk Distribution Saturday, Nov 9, 1–4pm Boeing Room

Mass care volunteers using fixed sites or a vehicle to distribute supplies such as shovels, bleach, cleanup kits, etc., to clients.

Chapter Orientation The 2nd Monday of every month, 5:30-8pm Basement classroom

Introductory disaster class that is the sequel to DCSO module 1 online. Explains what our chapter does locally, this chapter's volunteer opportunities, GAPs, and a bit about deployment. Required for new disaster volunteers. Others are welcome. This time period includes the monthly disaster meeting 7-8pm where participants will be introduced as new volunteers.

Distance Learning

The Emergency Management Institute (EMI) offers over 200 Independent Study (IS) courses designed for emergency management and whole community partners. Non-governmental, private, faith-based, business, and non-profit organizations are

appropriate participants. Many of these courses are prerequisites for subsequent classroom training. All are free-of-charge. To get a complete listing of courses, click on Course List link below:

Emergency Management Institute (EMI) - If Federal Government Shuts Down Again

Future course cancellations: If there is another lapse in appropriations and EMI staff are furloughed, the EMI leadership will send cancellations on Wednesday afternoons for any course that was to start the following Monday or any day that week. EMI has promised to communicate with Regional Administrators during any future shutdown and any information/updates shared are to be distributed to State EM Offices and the appropriate State EM POC.

Reimbursement: Any student who had purchased tickets (21+ days ahead of the scheduled travel date) for courses at EMI that were cancelled should send their flight cancellation information received from the travel service or airline to NETC Admissions. Any student who had purchased tickets to a course that was not cancelled rather the course dates were changed, need to send the

change ticket information received from the travel service or airline to NETC. NETC will process these cancel and change reimbursements.

FEMA Emergency Management Institute Independent Study Program

The Emergency Management Institute (EMI) offers over 200 Independent Study (IS) courses designed for emergency management and whole community partners. Non-governmental, private, faith-based, business, and non-profit organizations are appropriate participants. Many of these courses are prerequisites for subsequent classroom training. All are free-of-charge. To get a complete listing of courses, click on Course List link below:

<http://training.fema.gov/is/crslist.aspx>

The National Incident Management System (NIMS) Training Program recommends certain coursework for individuals who may be assigned field responder or Emergency Operations Center (EOC) roles.

Levels of suggested NIMS training for EOC and field responders are based on five levels of incident complexity, Types 1 – 5.

A Type 1 incident is the most complex. Some Type 1 descriptive incident characteristics are bulleted below:

- Requires national resources for safe and effective management and operation.
- All ICS command and general staff positions are filled.
- Operations personnel often exceed 500 per operational period and total personnel will usually exceed 1,000.
- Branches need to be established.
- A written Incident Action Plan (IAP) is required for each operational period.
- The agency administrator will have briefings, and ensure that the complexity analysis and delegation of authority are updated.
- Use of resource advisors at the incident base is recommended.
- There is a high impact on the local jurisdiction, requiring additional staff for office administrative and support functions.

A major earthquake in Skagit County is a Type 1 incident.

NIMS training includes the following coursework for EOC staff activated in a Type 1 complexity incident:

IS-100: Introduction to the Incident Command System
IS-700: National Incident Management System
IS-701: NIMS Multiagency Coordination System (MACS)

IS-706: NIMS Intrastate Mutual Aid – An Introduction
IS-800: National Response Framework, An introduction

G-191: Incident Command System/Emergency Operations Center Interface (classroom offering only)
G-775: Emergency Operations Center (EOC) Management and Operations (classroom or IS-775 – EMI online)

The NIMS Training Program recommends field responders mobilized against a Type 1 incident have similar training:

IS-100: Introduction to the Incident Command System
IS-200: Basic Incident Command System
ICS-300: Intermediate ICS
ICS-400: Advanced ICS
IS-700: National Incident Management System
IS-800: National Response Framework, An introduction

The coursework for Type 2, 3, 4 and 5 incident complexity environments diminishes as the progression from Type 1 to Type 5 (least complex) continues.

In general, most everyone should have the baseline NIMS training (IS-100 and IS-700) including schools, hospitals, businesses, special purpose districts and various members of the whole community. An interface with the Incident Command System may come at any time given our probability of occurrence of a natural or technological disaster or an act of terrorism. This training will clarify mutual expectations should fire, police, or EMS resources arrive in your parking lot.

These are NIMS Training Program recommendations. Each jurisdiction must decide what level of training their respective first responders and EOC staff are required to complete. The Snohomish County Emergency Management Training Program Manager is available to provide advice on NIMS training for various city and tribal nation personnel.

All courses beginning with “IS” are available on line at FEMA’s Independent Study site.

<http://training.fema.gov/is/crslist.aspx>

See the *National Incident Management System Training Program*, September 2011 at the link below for a full explanation of training requirements:

CONFERENCES AND WORKSHOPS

Title	Date	Information	Registration
Annual State Training & Exercise Planning Workshop (TEPW)	6/19/19 Richland Public Library	<p>Workshop Description</p> <p>An annual TEPW provides the opportunity to review the jurisdiction's or agency's strategy and develop or update its Multi-Year Training and Exercise Plan. There is a focus on coordination of all training and exercise activities occurring throughout the jurisdiction or agency, including activities sponsored by Federal agencies, States, local governments, and tribal governments. Jurisdictions or agencies must ensure that their training and exercise schedules are coordinated to prevent duplication of efforts, ensure resources are not overextended during training or exercises, and maximize the efficacy of training and exercise appropriations. Moreover, schedule collaboration can present opportunities for jurisdictions and agencies to fulfill multiple grant requirements with a single exercise or training course.</p>	<p>Participant Selection</p> <p>This event is for county, city, and tribal emergency managers; state agency liaisons; exercise coordinators; training coordinators; regional coordinators; and emergency planners.</p> <p>Workshop Contact Ed Taylor Exercises and Assessments Supervisor Washington State Emergency Management Division Phone: 253-512-7137 Email: ed.taylor@mil.wa.gov</p>
