

## **Initial Citizen Committee Recommendations**

### **Goal 6 - Water**

#### **VI. Water/Stormwater/Wastewater**

Water, stormwater, and wastewater issues are integral to many of the other topics discussed in our recommendations and, in fact, are generally best considered in the context of the other issues that relate to them. For that reason, we decided not to have a separate goal statement concerning them, which would have largely consisted of recommendations that also appeared elsewhere in this report.
