

# The Skagit County Junior Livestock Sale

Saturday, August 9th at 10:00am

Students are working hard on their animal projects raising lambs, beef, goats, pigs, rabbits, and poultry: chickens and turkeys. Exhibitors are learning animal husbandry, veterinary medicine, economics, business and marketing, as well as leadership skills. This experience is preparing them for a future as involved citizens, community leaders and wise decision makers. Career exploration includes agriculture and beyond. We invite you to continue supporting our youth.

*Today's youth are tomorrow's future and promise.*
