

The Skagit County Junior Livestock Sale

Saturday, August 8th at 10:00am

Students are working hard on their animal projects raising lambs, beef, goats, pigs, rabbits, and poultry: chickens and turkeys. Exhibitors are learning animal husbandry, veterinary medicine, economics, business and marketing, as well as leadership skills. This experience is preparing them for a future as involved citizens, community leaders and wise decision makers. Career exploration includes agriculture and beyond. We invite you to continue supporting our youth.

Today's youth are tomorrow's future and promise.

Please Support our Youth by Buying Local!
