

SKAGIT COUNTY  
**GIS**  
 DEPARTMENT

**Digital Airborne Imagery License:** Permits internal use of Product, within a legal commercial business entity at multiple locations or by a limited number of related civil governmental agencies identified at the time of original purchase, in the original medium, within the scope of a project for which the Product is procured.

Space Imaging retains all ownership rights in the Product for resale purposes to other entities. Space Imaging grants Users a non-transferable and non-exclusive, license to use the Products as specified below, and for no other use. Under this license, Users may do the following:

- a. Reformat the Product into different formats or media from those in which it is delivered.
- b. Make one copy of the Product for user's internal archival or backup purposes.
- c. Distribute the Product, on an isolated, non-commercial basis, in a non-manipulateable (e.g. bit-map) format, or as part of a hard copy research report or publication.
- d. **Copyright credit shall be to both Skagit County and Space Imaging with "Includes material © Space Imaging LLC".**
- e. Modify the imagery Product, through manipulation techniques and/or the addition of other data, and make copies of the resulting bundled image product, for User's internal use only.
- f. Distribute derivative works. Derived data is data extracted from imagery to produce vector information (e.g., street centerlines) and/or classification, and is irreversible and uncoupled from the source imagery. Extracted data is the property of the User.
- g. Post a derived product (irreversible processing performed) or degraded (with quality setting of no greater than 50% (level 5)) original product in a JPEG format, on an Internet site with the following credit conspicuously displayed, "Includes material © Space Imaging LLC". Such posting may in no event be used to market, sell, resell, or otherwise distribute the product(s).
