

## **WARNING: SYRINGES - DO NOT RECYCLE**

- Keep all syringes and containers out of reach of children
- Place used syringes in opaque solid plastic or metal bottle with screw cap
- Print this label and tape completely to container with clear plastic tape
- When container is 2/3 full, seal well with cap and place duck tape around the cap lid seal
- Place the container with your household trash

If you are located outside of Skagit County contact your local environmental health office for disposal options.
