Defining Homelessness

Literally Homeless: Staying in an emergency shelter, in a car, in a tent, on the streets, or a place not meant for human habitation

Chronically Homeless: Literally homeless more than one year OR more than three times in the last three years with the combined length of homelessness being one year or more; with a disability

Fleeing Domestic Violence: Without or losing housing due to domestic violence AND lacking resources to secure housing without assistance

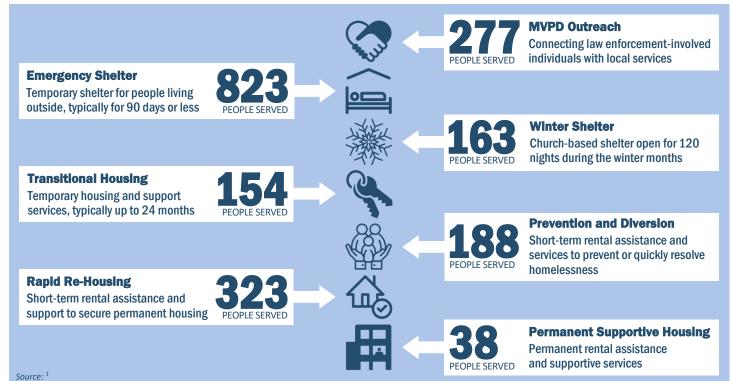

At Imminent Risk of Homelessness: Losing housing within 14 days AND lacking the resources to secure or maintain housing without assistance

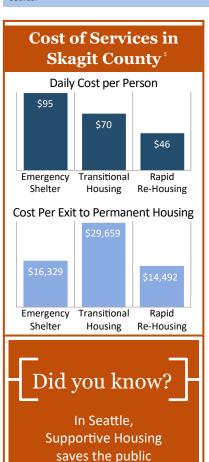

Did you know?

An increase of \$100 in median monthly rent can result in a 39% increase of homelessness in rural and suburban areas.³

Measuring Local Action

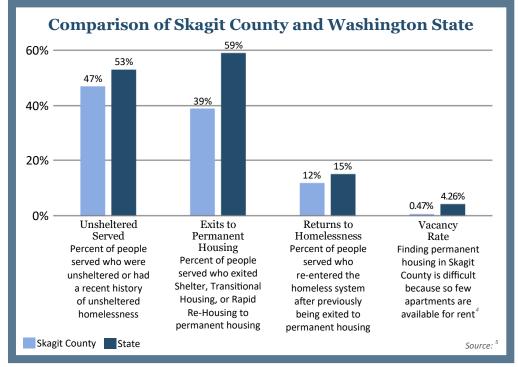

more than \$30,000

each year per

person housed.
