

PROGRAM OVERVIEW

SKAGIT COMMUNITY DETOX

ABOUT PIONEER HUMAN SERVICES

Pioneer Human Services is a nationally recognized non-profit organization with over 50 facilities in operation. We are proud to be a leading organization in Washington state that offers an integrated array of treatment, housing and employment services to men and women who are overcoming the challenges of substance use disorders, mental health issues and criminal histories. Pioneer's goal is to provide a chance for change for people who want to turn their lives around.

ABOUT SKAGIT COMMUNITY DETOX:

LOCATION	SERVICES	REFERRAL SOURCES

The Skagit Community Detox (SCD) is a 16-bed sub-acute detox program. The center serves North Sound region residents for detox and provides services for residents who are experiencing a crisis related to their substance use disorders. Most of the services are available 24 hours a day, 7 days a week.

This program receives funding from **Skagit County Public Health**; funding sources come from the North Sound BHO and Skagit County.

PROGRAM DETAILS

Sub-Acute Detoxification Services – SCD ensures safe withdrawal from alcohol and other drugs, provides substance use disorder assessment and referrals, and assists clients to ensure after care is arranged. The dedicated staff of SCD also helps to coordinate treatment and the center offers a seven-day **Suboxone Tapering program** for opioid addiction. *SCD accepts applications over the phone, in-person, or with a provider. Please call or walk-in to check the center's bed availability.*

SCD's exclusionary terms include clients:

- Under 18 years of age
- With a blood alcohol level greater than .25
- Who cannot attend to their own activities of daily living
- With behavior problems that require hands-on or any type of restraint

- In a wheelchair or who needs other adaptive equipment and cannot self-transfer and self-evacuate the building in an emergency

Pertinent referral information needed at intake includes:

- Basic demographic information for client
- Symptoms and behaviors of client necessitating the referral for treatment
- Current cognitive functioning issues *i.e.*: disorientation, memory impairment, problems with judgment
- Current risk factors for client including suicidal and homicidal ideation
- Contact person and phone number if follow up is desired
