Proposal Description

Skagit County Code 14.04 and 14.16 include sections which pertain to the development and maintenance of wireless facilities. The current code is not compliant with federal standards and does not include regulations for new types of infrastructure wireless providers are installing for their networks. This proposed update would ensure Skagit County Planning & Development Services (PDS) is prepared to process applications for infrastructure such as small cell wireless facilities, which are often placed on existing poles or other infrastructure in the right-of-way, and that staff are adhering to new federal shot clock requirements for wireless application permits.

SEPA Threshold Determination

Skagit County has determined that this proposal does not have a probable significant adverse impact on the environment. An environmental impact statement is not required under the State Environmental Policy Act, RCW 43.21C.030(2)(c). This determination was made after review of a completed environmental checklist and other information on file with the lead agency and is available upon request and at the above listed website.

This determination is issued pursuant to WAC 197-11-340(2). Skagit County will not act on this proposal for at least 14 days from the publish date indicated in the table above. Written

comments regarding this Determination of Nonsignificance must be submitted by the written comment deadline (above) and in the same manner as other comments. Pursuant to SCC 16.12.210, no administrative appeal process is available for this legislative action.
