If you apply for a development permit on a site in, or within 500 feet of, any Natural Resource Lands zone, the application must include this signed statement.¹ Go to <https://www.skagitcounty.net/Maps/iMap/> and select Comprehensive Plan under Planning and Development Services to determine if this requirement applies to your project. Applications submitted on or after July 5, 2016, no longer require a title notice recorded with the Auditor. If a building permit was approved prior to the date above, the document can be found in the Recorded Document link on [Skagit County's Property Search Page](#) for the given property address.

Statement

This parcel lies within an area or is within 500 feet of an area designated as a natural resource land (agricultural, forest, and mineral resource lands of long-term commercial significance) in Skagit County. A variety of natural resource land commercial activities occur or may occur in the area that may not be compatible with non-resource uses and may be inconvenient or cause discomfort to area residents. This may arise from the use of chemicals; or from spraying, pruning, harvesting, or mineral extraction with associated activities, which occasionally generates traffic, dust, smoke, noise, and odor. Skagit County has established natural resource management operations as a priority use on designated natural resource lands, and area residents should be prepared to accept such incompatibilities, inconveniences, or discomfort from normal, necessary natural resource land operations when performed in compliance with best management practices and local, State, and Federal law. In the case of mineral lands, application might be made for mining-related activities including extraction, washing, crushing, stockpiling, blasting, transporting, and recycling of minerals. In addition, greater setbacks than typical may be required from the resource area, consistent with [SCC 14.16.810](#). Contact Skagit County Planning and Development Services for details.
