Hello Kevin,

Please see the attached letter from the DAHP concurring with the results and recommendations in the survey report, and recommending that the project move forward follow an Inadvertent Discovery Plan.

Feel free to contact me if you have questions about these recommendations.

Best,  
Stephanie

Hello Kevin,

I could not see evidence that the DAHP ever sent an official concurrence letter when the archaeological survey report was completed for this project in 2017. If it would be useful to have for your files I am happy to provide a letter. Our letter would recommend that the project move forward

following an Inadvertent Discovery Plan, which is already in the MDNS requirements, so I was not sure if a letter would be useful at this time.

If so just let me know.

Best,

Stephanie

Property: PL16-0097 Concrete Nor'West Gravel Mine  
Re: Archaeology - Concur with Survey; Follow Inadvertent Discovery Plan

Dear Mr. Cricchio:

Thank you for contacting the State Historic Preservation Officer (SHPO) and the Department of Archaeology and Historic Preservation (DAHP) with documentation regarding the above referenced project. In response, we concur with the results and recommendations made in the survey report. Specifically, as no cultural resources were found during the survey we do not recommend further direct archaeological supervision of the project. However, we do recommend that a standard Inadvertent Discovery Plan is followed during all ground disturbing activities.

Please note that the recommendations provided in this letter reflect only the opinions of DAHP. Any interested Tribes may have different recommendations. We appreciate receiving copies of any correspondence or comments from Tribes or other parties concerning cultural resource issues that you receive.

These comments are based on the information available at the time of this review and on behalf of the SHPO pursuant to Washington State law. Please note that should the project scope of work and/or location change significantly, please contact DAHP for further review.

Thank you for the opportunity to review and comment. Please ensure that the DAHP Project Number (a.k.a. Project Tracking Code) is attached to any future communications about this project. Should you have any questions, please feel free to contact me.

Sincerely,

Stephanie Jolivette

**RE: Ecology Comments on the Grip Road Gravel Mine  
Project File # PL16-0097 and PL16-0098**

Dear Kevin Cricchio:

Thank you for the opportunity to provide comments on the State Environmental Policy Act (SEPA) mitigated determination of nonsignificance (MDNS) for the Concrete Nor'West gravel operation near Grip Road. On behalf of Ecology's Shorelands and Environmental Assistance (SEA) Program, I am submitting the following comments regarding this project for your consideration:

- Based on review Fish and Wildlife Assessment prepared by Graham-Bunting Associates, it is not clear if the wetland adjacent to the Samish River have been delineated as required in Skagit County Code (SCC) 14.24.200. Without an accurately delineated wetland edge it is unclear how the width of the wetland buffer will be identified.
- Based on the Graham-Bunting Associates Fish and Wildlife Assessment, it appears that the wetland along the Samish River was rated using the Ecology 2004 Wetland Rating Form. Section 14.24.210 of the County's Critical Areas Ordinance (CAO) requires that wetlands be rated according to Ecology's 2014 Wetland Rating System.
- The wetland along the Samish River has been rated as Category II wetland per the Graham-Bunting report. The proposed gravel mine would appear to be considered a high land use impact per SCC 14.24.230(1)(a), and therefore require a standard buffer of 300'. The Graham-Bunting report implies use of an optional buffer width, however, it is unclear how the proposed 200' buffer is consistent with the optional wetland buffer widths listed in SCC 14.24.230 (1)(b).

Thank you for considering these comments from Ecology. Based on the extensive number of documents associated with this proposal, it is possible that I may have missed information that

Concrete Nor'West, MDNS comments

March 11, 2022

Page 2 of 2

could have addressed my concern. If you have any questions or would like to discuss these comments, please contact me at (360) 410-4807 or by email at [chris.luerkens@ecy.wa.gov](mailto:chris.luerkens@ecy.wa.gov).

Sincerely,

A handwritten signature in cursive script that reads "Chris Luerkens".
