Puget Sound Refinery

---

**ERRATUM/REVISION:** This erratum corrects a U.S. Army Corps of Engineers/Department of Ecology Joint Public Notice dated July 8, 2014.

The corrected information is as follows:

The corrected work description changes “oil loading/unloading” to “unloading” and should read “The proposed project would construct a rail spur and crude oil unloading facility with appurtenant features.”

The corrected total cubic yard amount of excavated material was changed to “Up to one million cubic yards of material would be excavated to construct an approximately 5,000-foot-long trench for the required rail grade and spill containment pad. Up to 237,000 cubic yards of material would be excavated from wetlands and up to 763,000 cubic yards of material would be excavated from uplands.”

All other information shown on Public Notice NWS-2013-1283 remains unchanged.
