

## Guidelines for Using the Index to Skagit County Long Plats

This file contains the Index to Skagit County Long Plats. It provides an index and links to long plats prior to July 1, 1999 and covers volumes one through seventeen. Newer plats may be located through the Skagit County Auditor's records database. The purpose of this index is to enable the user to quickly locate and print long plats.

This index is organized alphabetically by plat name. Often times a key word in the plat name was selected as a basis for ordering the list. For example:

| <b>Plat Name</b>                   | <b>Alphabetized By</b>         |
|------------------------------------|--------------------------------|
| • Map of the City of Anacortes     | Anacortes City of              |
| • Allknights Addition to Anacortes | Allknights Addition to Ana     |
| • Siegfreds Addition to Bay View   | Bayview, Siegfreds Addition to |

The plat volumes are organized sequentially by page number.

Once a plat is located in the index note its volume and page number. Scroll down in the bookmarks to that volume and click it. The index will close and that volume will open. In the plat volume click on the page number bookmark that is nearest to the page number of the desired plat. This will move you to that page. Use the navigation arrows at the center of the bottom of the page to move to the plat. Plat numbers are located on edge of the plat (e.g. 2-33), sometimes they may be difficult to find or read. If you have trouble determining the page number zoom in on it or flip ahead or back with the navigation arrows to find a number you can read and use that as a reference point. Generally each page is a new number, however, occasionally there may be an irregularity ( e.g. page 91 followed by 91a or a page that number that is skipped or page that has been lost.)

**Printing** documents is much like any other windows based software. Remember select the correct print range (Current view or Current page). If "All" is selected you may get a rather large printout.

**Bookmarks** may be found on the bookmark tab of the PDF file. By clicking on a bookmark you will move to that location in the file.

**Text searching** is available but may give incomplete results due handwritten references and a variety of fonts that are used.

If you have any questions about using this index or suggestions or corrections please contact Keith Luna in the records vault.

# Skagit County Index to Long Plats

# Public Works - Plats Indexed by Name

*This index covers long plats prior to 7/1/1999*
