

Guidelines for Using the Index to Skagit County Short Plats

This file contains the Index to Skagit County Short Plats. It provides an index and links to short plats prior to July 9, 1999 and covers volumes one through fourteen. Newer plats may be located through the Skagit County Auditor's records database. The purpose of this index is to enable the user to quickly locate and print short plats.

There are four primary indexes that may be used to locate short plats:

- Auditor File Numbers Index
- Short Plat Numbers Index
- Township and Range Index
- Volume and Page Number Index

To locate a short plat select an index and use its bookmarks to find the volume and page number for that short plat. Find that volume in the lower section of the bookmarks and click on it. This will open the volume. Use the new set of bookmarks to select the page that is nearest the location of the plat. This will move you to that page. Use the navigation arrows at the center of the bottom of the page to move to the plat. Plat numbers are located on edge of the plat (e.g. 2-75) often at the top, sometimes they may be difficult to find or read. At the top of volume's bookmark will be a bookmark to return you to the main short plat index.

The total number of pages for a short plat will be listed after the page number in the index.

Printing documents is much like any other windows based software. Remember select the correct print range (Current view or Current page). If "All" is selected you may get a rather large printout.

Bookmarks may be found on the bookmark tab of the PDF file. By clicking on a bookmark you will move to that location in the file.

Text searching is available but may give incomplete results due handwritten references and a variety of fonts that are used.

If you have any questions about using this index or suggestions or corrections please contact the Skagit County Public Works records vault.

Skagit County Index to Short Plats

*Covers Short Plats Prior to 7/10/1999
