

Skagit County Index to Meehan Field Books

Yellow highlighting indicates the reference is available
in the Skagit County Public Works records vault.

INDEX OF FIELD BOOKS
FROM THE COLLECTION OF:

JOHN MEEHAN SKAGIT COUNTY SURVEYOR

John Meehan was Skagit County's first County Surveyor. He was also a private Surveyor. We have two collections of his work. Meehan's field books date from the mid 1890's up to the late 1930's.

The first collection, from Skagit County itself, consists of approximately 21 field books. Those books were filmed in their entirety and indexed. Those rolls are film box # B480 - B482. The books were returned to Skagit County Public Works.

The second collection was given to the PLSO by Skagit Surveyors, Inc. It totals 108 field books along with an index book. This collection also includes books from other surveyors such as J.C. Parsons and Russell H. Davis. Parson's work is from around the turn of the century, Davis's from the 1940's & '50's.

The index book was filmed and our copy is contained on boxes B478 & B479. The field books were first filmed shooting only those pages that were determined to have survey value. That film is found in boxes B505 - B510. They were then refilmed in their entirety at the request of, and for the benefit of Skagit Surveyors, Inc. Copies were sent to Skagit Surveyors and the originals archived. The original rolls are numbered 296 - 307 and 314. The index and the books were also archived.

The following pages are an index by Township, Range and Section of the combined collection.

NOTES:

1. Old book numbers beginning with "C" are books found on the film rolls of Skagit County. (there won't be a "C" on the film.)
2. The column headed with T/F indicates whether the page(s) have been filmed. ".T." is true (has been filmed), ".F." is false (has not been filmed).
