Skagit County Index to Recorded Surveys

*Covers Recorded Surveys Prior to 7/22/1999
See The Auditor's Database For More Recent Surveys*

Guidelines for Using the Index to Skagit County Recorded Surveys

This file contains the Index to Skagit County Recorded Surveys. It provides an index and links to long plats prior to July 22, 1999 and covers volumes one through twenty-two. Newer plats may be located through the Skagit County Auditor's records database. The purpose of this index is to enable the user to quickly locate and print recorded surveys.

This file consists of three index:

- Auditor's File Number Index
- Township Range Index
- Volume and Page Number Index

The recorded survey volumes are organized sequentially by page number.

Once a survey is located in the index note its volume and page number. Also take note as to the number of pages contained in the survey. Scroll down in the bookmarks to that volume and click it. The index will close and that volume will open. In the survey volume click on the page number bookmark that is nearest to the page number of the desired survey. This will move you to that page. Use the navigation arrows at the center of the bottom of the page to move to the survey. Page numbers are located on edge of the survey, sometimes they may be difficult to find or read. Be sure to check for additional pages. If you have trouble determining the page number zoom in on it or flip ahead or back with the navigation arrows to find a number you can read and use that as a reference point. Generally each page is a new number, however, occasionally there may be an irregularity (e.g. page 91 followed by 91a or a page that number that is skipped or page that has been lost.)

Printing documents is much like any other windows based software.

Remember select the correct print range (Current view or Current page). If "All" is selected you may get a rather large printout.

Bookmarks may be found on the bookmark tab of the PDF file. By clicking on a bookmark you will move to that location in the file.

Text searching is available but may give incomplete results due handwritten references and a variety of fonts that are used.

If you have any questions about using this index or suggestions or corrections please contact the Public Works records vault.
