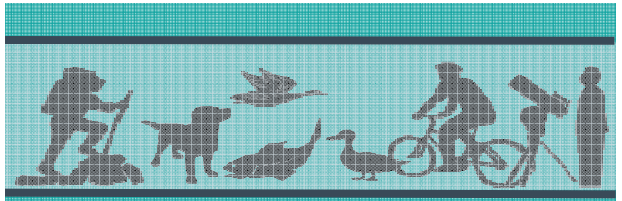
The Clean Samish Initiative is a joint effort between neighbors and friends, your commissioners, local agency representatives and citizens whose livelihoods depend on the Samish Watershed being healthy. With your help we can make a difference!

Clean Water is for Everyone and Everything!

Revised May 2013, SCEA



Map

Toilets
Pet Waste Stations
Samish Basin Watershed

Toilets
Pet Waste Stations
Samish Basin Watershed

~ One gram of pet waste the size of a pea contains 23 million fecal coliform bacteria.

~ Water quality standards for fecal coliform bacteria are set so people will not get sick from contact with water.

~ Viruses can make a community sick down stream.

~ Confining and managing human and pet waste helps to reduce viruses and fecal coliform pollution.
