## PROPOSAL BOND

KNOW ALL MEN BY THESE PRESENTS, That we, \_\_\_\_\_

Strider Construction Co., Inc.

of Bellingham, WA as principal, and the Travelers Casualty and Surety  
Company of America a corporation

duly organized under the laws of the State of Connecticut,  
and authorized to do business in the State of Washington, as surety, are held and firmly bound unto  
Skagit County in the full and penal sum of five (5) percent of the total amount of the bid proposal of  
said principal for the work hereinafter described for the payment of which, well and truly to be made,  
we bind our heirs, executors, administrators and assigns, and successors and assigns, firmly by these  
presents.

The condition of this bond is such, that whereas the principal herein is herewith submitting  
his or its sealed proposal for the following construction, to wit:

Helmick Road Project

SCPW #ES95510-2; F.A. Project No. STPR-STPH-29HR(001)

\_\_\_\_\_ said bid and proposal, by

reference thereto, being made a part hereof.

NOW THEREFORE, If the said proposal bid by said principal be accepted, and the contract  
be awarded to said principal, and if said principal shall duly make and enter into and execute said  
contract and shall furnish bond as required by Skagit County within a period of twenty (20) days  
from and after said award, exclusive of the day of such award, then this obligation shall be null and  
void, otherwise it shall remain and be in full force and effect.

IN TESTIMONY WHEREOF, The principal and surety have caused these presents to  
be signed and sealed this 30th day of May, 2006.

**Representative Assignments and Project Responsibilities Include:**

- 2006 -- Project Superintendent, Belleville Sand and Gravel Mine Bridge on Samish River, Burlington, WA. The project involved construction of a new bridge across the Samish River. Work included bridge removal and disposal, construction of the new bridge and foundation, excavation and embankment construction, new road construction, grading, concrete approach slabs, paving, and other work. Contract Amount: 1 Million.
- 2006 -- Project Superintendent, Pump Station #3 Rehabilitation, Birch Bay, WA. The project involved replacing and upsizing conventional submersible wastewater pumps, valve, piping, discharge elbows, and appurtenances. The work also included construction of a 510 square foot CMU building to house generator, electrical, control and telemetry equipment. Contract Amount: \$785,000.
- 2005 -- Project Superintendent, West UGA Utilities Extension, Port Angeles, WA. The project included the installation of approximately 7,900 LF of 16-inch ductile iron water line with valves and hydrants and service connections, 4,400 LF of 4-inch polyvinylchloride sewer forcemain with valves and service connections, and 2,200 LF of 8-inch gravity sewer main with manholes. Also included included were approximately 12,400 LF of bundled 1.5-inch fiber conduit, 12,500 LF of 5-inch electrical conduit, a 100-gpm sewage pump station, a 3,500-gpm water pump station, surface improvements, and associated site work. Contract Amount: \$3.1 Million.

- 2005 – Project Superintendent, East Smith Road Anderson Creek Bridge #277 Replacement, Bellingham, WA. The work included the construction of a precast concrete deck bridge across Anderson Creek. The project involved bridge removal and disposal, construction of the new bridge and foundation, excavation and embankment construction, grading, concrete approach slabs, paving, and other work. Contract Amount: \$635,000.
- 2004 – Project Superintendent, Goldenrod Bridge Road Improvements, Burlington, WA. The work involved construction of a new connector street and pre-cast concrete girder bridge over an environmentally sensitive wetland. Project included clearing, fill, utilities, curb and gutter, and ACP. The bridge included a concrete deck and is 115 feet long. Contract Amount: \$2.1 Million.
- 2003 – Project Superintendent, Oak Street Pump Station Upgrade, Bellingham, WA. The work involved construction of a new generator building, wetwell, diversion structure, and flow meter vaults. This included installation of five (5) vertical turbine 600 hp pumps, two (2) kw generators, five (5) VFDs and associated electrical upgrade. This work required shoring, dewatering and bypass pumping 20 mgds. The work also involved upgrading an existing pump station from 20 mgd to 44 mgd. Contract Amount \$ 4.4 Million.
- 2002 – Project Superintendent, Lake Forest Park Reservoir Covering, Seattle, WA. The work included retrofitting an existing concrete water reservoir by constructing a 660' long, 28' high concrete dividing wall. The resulting two cells received HDPE liners and floating covers. Yard piping revisions and sitework to improve the operations completed the scope. The project was completed ahead of schedule. Contract Amount: \$5.4 Million.
- 2001- 2002 – Project Superintendent, Lynden Wastewater Treatment Plant Liquid Stream Expansion, Lynden, WA. The work consisted of construction of two new 65' diameter clarifiers, headworks, anoxic selector, operations building, effluent filter, UV, Parshall flume, effluent pump station, sludge thickening building, 220' utilidor and two new 42' diameter digestors, all totaling 4000 CY concrete with associated sitework, mechanical and electrical. Contract Amount \$ 7 Million.
- 2001 – Project Superintendent, Pickett Bridge Repair Project, Bellingham, WA. This project involved retrofitting a historical bridge in downtown Bellingham. The existing superstructure was removed down to the footings. A new structural deck and abutment walls were built. Contract Amount: \$750,000.
- 2001 – Project Superintendent, Gig Harbor Sewage Pump Station 3A, Gig Harbor, WA. The scope of this job included a new sewage pump station, buildings, mechanical and controls. Work included an above ground concrete tank, 26 feet in diameter by 28 feet tall, that had to be sunk to 28 feet below grade after construction and the building constructed on top. Contract Amount: \$1.3M
- 2000 – Project Superintendent, Fairhaven Kitchen, Western Washington University, Bellingham, WA. This job involved complete demolition, rebuild and retro fit of an existing commercial kitchen. This was the first job of its kind to be done on time and on budget at Western. Contract Amount: \$750,000.

a corporation

duly organized under the laws of the State of Washington,  
and authorized to do business in the State of Washington, as surety, are held and firmly bound unto  
Skagit County in the full and penal sum of five (5) percent of the total amount of the bid proposal of  
said principal for the work hereinafter described for the payment of which, well and truly to be made,  
we bind our heirs, executors, administrators and assigns, and successors and assigns, firmly by these  
presents.

The condition of this bond is such, that whereas the principal herein is herewith submitting  
his or its sealed proposal for the following construction, to wit:

Helmick Road Project, SCPW #ES95510-2

\_\_\_\_\_ said bid and proposal, by

reference thereto, being made a part hereof.

NOW THEREFORE, If the said proposal bid by said principal be accepted, and the contract  
be awarded to said principal, and if said principal shall duly make and enter into and execute said  
contract and shall furnish bond as required by Skagit County within a period of twenty (20) days  
from and after said award, exclusive of the day of such award, then this obligation shall be null and  
void, otherwise it shall remain and be in full force and effect.

IN TESTIMONY WHEREOF, The principal and surety have caused these presents to  
be signed and sealed this 30th day of May, 2006.
