Bid Opening: Wednesday, April 22, 2026 Time: 3:30 p.m. Project Manager: Leanne Ingman, Natural Resources Technician

#	Questions:	Answers:	Received:
1	<p>the Groesbeck and Burmaster bid packets and the project description does not match the plans. The plans are different than the initial sketch in the bid packet.</p>	<p>For Burmaster: The plans that begin of PDF page 155, Document Page are specific to the roof drainage infrastructure. The plans starting on PDF page 158 are template drawings for the rest of the structure. Follow the structural sheets for the Ecology Block options on S5-S7 (PDF page 162-164). The 2-bin instructions (highlighted in yellow) are what we are looking to build.</p> <p>In Groesbeck I flipped the order, so the Template drawings start on PDF page 153, again following the 2- bin Ecology block options on S5-S7 (PDF page 157-159). The plans for the roof drainage begin on page 162.</p> <p>The initial sketch on the bid packed is a screen grab of the roof drainage plans.</p>	3/26/26
