

Skagit River Marblemount Bridge **BRIDGE CLOSURE NOTICE**

Please be advised, Skagit County Public Works is conducting a rehabilitation project on the Skagit River Marblemount bridge and there are eight additional planned overnight closures in late August to early September to facilitate the deck replacement work. The bridge will reopen for normal traffic each day.

Due to the road washout at Jordan Creek on Rockport Cascade Road and the closure of the Marblemount bridge, visitors and residents east of the bridge closure will not be able to access State Route 20 during closure hours.

Please ensure you are prepared with the necessary emergency supplies, food, and medication to last through the nighttime closures this June.

These closure dates are weather dependent. Please sign up for email alerts to be updated about any schedule changes.

Dates: Aug 24 - Sept 4
Days: Mon PM - Fri AM
Time: 8 PM - 4 AM

Visit our project website using the QR code for more information about the project and to sign up for email updates.
